Paper: 70 GSM Map litho

Pages: 100

Price: Rs. 100/-

Self-Published

Email: mohanbangalore31@gmail.com

The book answers the following questions

1. The significance of Pyramid.
2. Genesis chapter 1-1, Elohim and Adam of Paradise and Earthly Adam is explained
3. Insight into the statement of Jesus about Kingdom of 'Heaven within us' and 'Broad Gate & Narrow Gate'.
4. Is Holy Quran, the word of Allah?
5. What is the proof that the Supreme Lord rules the universe?
6. How was the universe created?
7. Finally, what is the secret of our physical body?

FOREWORD

The Supreme Lord sent a revelation to many tribes on earth but they all failed to understand the glory of Supreme Lord. It is because man is not aware of the subtle world, the glory of Supreme Lord and angels. Man sees only the physical world hence he believes that what he sees is the only truth and what he does not see; does not exist.

Therefore, most of the tribes who received revelation deviated from worshipping the Supreme Lord. The final revelation, the Holy Quran too is not understood by the Arabs but they did not reject Allah as other tribes did and worshipped Him alone. However, all religions know only the half-truth.

Ancient Arabs had no knowledge about the glory of Allah. They lived within small tribes and indulged in idol worship. Their life was one of fighting with each other, looting, killing, avenging and dealing in slavery. They worshipped many idols and believed that their life ends with the death of the physical body. They had no idea that **man is an eternal being** and they will have to answer for their deeds after death. We all know how difficult it is to change one's belief. Even if a great Master comes and tries to teach the truth, they will reject him thinking him to be mad or may even kill him.

The Holy Quran states: They say now: "There is nothing but the life of this world, and we shall not be raised from the dead." (6-29)

Prophet Mohammed (PBUH) was born in such a country where hatred and killing were the norm. However, Prophet Mohammed (PBUH) received the blessings of Allah and the divine revelation, the Holy Quran. The Prophet (PBUH) preached his revelation to the people and stated that death is not the end. There is life after death and we all will be raised from death and go to the presence of Allah on the day of Qiyamat when the universe will be dissolved. Every one of us is answerable to Allah on the day of Qiyamat for our actions.

There was a great struggle and war to convince the Arab world of the truth of Holy Quran. It shows how difficult it is to convince people of other faiths to believe in something which they are not aware of. For this reason, the Muslim mindset is to wage war on nonbelievers.

The Holy Quran came down to earth nearly 1400 years ago yet the Arabs have failed to understand the secret of Holy Quran. Religions of the Middle East have no understanding about the subtle world present within us. They don't understand that God's Kingdom is present within us. Arabs are aware of the physical world only. They think that after death they will remain in the burial ground till the Judgment Day.

One night Prophet Mohammed (PBUH) was purified by angel Gabriel and taken to the presence of the Lord, where he was blessed by Allah. The Arabs could not understand this major event in the life of the Prophet until now. They also don't realize that they too can go to the presence of Allah in this birth itself. But Allah's blessing is imperative to go to the abode of Allah.

Arabs don't encourage any interpretation or discussion on Holy Quran by anyone. They also discourage Muslims from reading scriptures of other faiths. Holy Quran itself states that

many nations have received guidance and divine revelation from Allah. Muslims never tried to understand other revelations received by those nations.

Therefore, Muslims have failed to understand the Holy Quran despite having received it about 1400 years ago. Many Sufi saints, Imams and other religious persons, who have committed their life for the blessings of Allah, have not received the blessings of Allah and the secret of creation. Allah has not guided anyone in his true path till today.

No one knows the secret of Allah and no one can understand the glory of Allah unless Allah Himself reveals it.

Therefore, Prophet Mohammed (PBUH) stated that a person from my progeny would come in the future and reveal the secret of the Lord. Muslims call this person as Imam Mahdi who will guide mankind in all truths of the Lord. It is said that he will receive direct guidance from Allah.

Muslims have one great quality, though they have not understood the Holy Quran and the secret of Allah; they have not rejected it like the other tribes who received revelations earlier. Other groups that received the divine revelation deviated from the true path and wrote many scriptures based on their intellect. They guided their followers through false teachings.

The Torah and Holy Quran are based on the belief of Jews who themselves don't know Allah's path. Hence the Middle Eastern countries don't understand the true teachings of their scriptures. Therefore, I believe that this book will show them the true path.

Not only religious people but even scientists would benefit from this book. For example:

- The scientists believe in the Big Bang theory of creation but revelations throw new light upon it. They will know how this universe was created and how it will be destroyed in future. They will also understand how all species came into existence.
- The scientists will understand that Energy/Force is different from Matter. They believe that the universe is created by matter but they also believe that there must be anti-matter as well. They are searching for anti-matter in the universe but they are yet to find it. This book shall reveal to them as to where it is.
- According to the first revelation Rig-Veda, there are three kinds of space. What we are experiencing is the Physical Space where we see all the stars and galaxies that are present in the universe.

The second is, Hyper Space, in which we can see the Supreme Lord, all the angels and seven heavens. The third is the Deep Space in which the glory of the Universal Mind and the Supreme Lord can be seen.

- Similarly, there are three kinds of Breath or Force. One is the physical air which all creatures breathe.

Second is the Breath as Holy Spirit which is Omnipresent. The Supreme Lord and the Angels who are imperceptible wear this Holy Spirit as their body and Gods appear in golden hue. They also use this force to create the universe. Gravitational force, electro-magnetic force, strong force and weak force have originated from the Holy Spirit.

The third is the subtlest Holy Spirit which appears like lightning hue. One pole of Universal Mind wears this as her body.

Allah has created the universe and He is the ruler of this universe. He has blessed the Holy Spirit with a personality and mind. (Similarly, Holy Spirit is also present within us and our mind is the personality of him.) Allah has blessed me with His vision and revealed his secrets one by one. Therefore, I wish to share my experience with the Muslims and others. I believe this book will guide mankind in the ways of the Lord.

Let me now explain my spiritual journey. I was born in 1952. I had a desire for spirituality since childhood but my spiritual journey started in October 1990. I came across a teacher who initiated me in Yoga. I took the initiation without any belief but I wanted to try it out for three months and then decide whether to continue or not. I was engrossed in meditation in June and July of that year as I had no job at that time. After a month of intense meditation, I thought of investigating the truth of Yoga. I tried to activate the inner world present in the spinal cord. To my surprise they became active and started generating divine energy.

I had no knowledge of Yoga and out of curiosity I activated them. I could feel my body becoming sensitive due to the energy generated by yoga. Fire and Breath became stronger within me and the earth and water elements became weaker. My body was very delicate; I could feel the effect of sound generated from the outside world resonating within my body. My body was fully ready for the inner journey.

One evening I was relaxing on a chair. I thought about a mantra and wanted to observe the effect of it. So, I chanted it and immediately lightning struck across the chest and along with it the Holy Spirit (Vayu) and Fire (Agni) rose very forcefully within me. The force of Fire and Vayu could be compared to one standing in front of a ship's exhaust.

I was afraid of the force and did not know what to do or how to control the Fire and Vayu. I tried every method to pacify the effect of such awakening. Nothing worked and the awakening force was very intense. How can I explain the turmoil I underwent at that time? The force of Fire and Breath was continuously active day and night. It was a nightmare for me.

Only those who have undergone the experience can understand this turmoil of mine. I was advised by my teacher and well-wishers to stop meditation immediately. So, I stopped meditation for many years. Slowly and gradually Fire and Breath became normal in due course but the effect still continues.

There came a major breakthrough in my life in the year 2011 when I was sixty years old. Once again, I started Sun worship. After a few weeks a thought came to me that the Upanishads speak of an auspicious minute channel going upwards from the heart centre which leads us to the highest place of the Supreme Lord. So, I thought of trying it.

In my earlier effort at inner journey I was aware of my soul residing inside the eight-petal lotus below the heart centre which looks like a plantain flower. Our soul looks like a candle light in a windless space.

On that auspicious day in 2011, in the month of August or September, while sitting in meditation, I chanted a mantra to lift the eight-petal lotus upwards. Surprisingly the lotus which was hanging its head downwards, lifted up. Then I chanted the mantra to open the closed lotus, it indeed opened up. Then I chanted a mantra to awaken the minute channel stretching upwards. Immediately the channel came into my vision. I then chanted a mantra to move my soul towards the head where the Seventh Heaven is said to be present.

Surprisingly the soul started moving upwards within the channel. I reached the top of the head and placed it near the mid brain. The surroundings looked familiar and I thought I had been here before. Then I was wondering what to do next. I thought ‘**nowwhat**’.

Then all of a sudden from the deepest corner of my heart (or may be from navel), the WORDS (mantra) automatically came out of my mouth and Supreme Lord descended sitting on the throne. (Supreme Lord descended in the upper brain, in the hyperspace present within me.) I worshiped the Lord in the Vedic way and completed my meditation. At that time, I did not understand the significance of my vision. I had no understanding of Supreme Lord. Later I came to know that He is the one who rules the universe.

I was worshipping Supreme Lord daily and yet for nearly ten months I did not understand the significance of my vision of Supreme Lord. Was it for real or was it my imagination? I was never a serious worshipper. We also believe in India that it takes many years or a lifetime of effort to advance in the spiritual path. Some have devoted their entire life for the vision of the Lord. Yet only a few are successful. Even those who are blessed have not understood the secret of the divine scriptures.

Gradually I understood that it was not an imagination. I had neither invited Supreme Lord nor had any idea of how the Lord looked. The WORD came out of my mouth from the deepest corner of my heart spontaneously without any effort from my side.

I had not worshipped Supreme Lord previously and neither did the people of India worship the true Lord. No one in the Hindu religion worship the true God because they believe in many Gods as the Supreme Lord. I too did not know who the true God is. Never had I worshipped or taken the name of the Lord. Yet I received the Lord’s vision and blessings.

Why Supreme Lord blessed me without my prayer is beyond my imagination? Was it due to my resolve during prayer that I be blessed with ‘Yoga and its secret’? The secret of Yoga is really the secret of creation and the glory of Supreme Lord. Or was it the will of the Lord? I don’t know the answer.

Normally in Hinduism everyone worships the deity or photo of the Lord and meditates on the form of the Lord. The form of the deity gradually takes the shape on the mental screen of the mind. This mental form acquires the power and it is capable of performing many miracles. But in my case, I never projected Supreme Lord on the screen of my mind. I was worshipping the Lord intermittently, skipping a day or two in between but this revelation continued.

Rig-Veda states once a person is blessed by the Lord then all gods follow one by one to bless that person. The Supreme Lord’s friendship is not like earthly friendship, once he blesses, his blessing is eternal. Once the Lord decides to bless his devotee no one can stop him. Such is the glory of the Supreme Lord.

As I was enriched with the understanding of the gods, I observed that all religious scriptures speak of the same truth in part but not in totality. My mind was always obsessed with the subject of God’s ways and its deepest secrets. New thoughts started flowing in my mind; at times while meditating, sometimes answers started coming out of my mouth as soon as I woke up in the morning or while watching TV or reading the newspaper. Each such thinking, studying or viewing process triggered in me a fresh understanding of the subject.

Since then I have gained a lot of insight on Gods (Angels) and their glory in creation. It is still an ongoing process - every week, every month - I gain some new understanding. I am just an instrument in receiving it from above. Divine thoughts flow into my mind and I have always followed my inner thoughts.

Grace works in mysterious ways. Some people devote their whole life for getting the grace of the Lord and yet they do not receive it, whereas others receive it quickly without much effort. But I feel that I did not deserve grace from the Lord because firstly, I am obese and cannot sit in a proper position for prayer. Sitting for long periods is a prerequisite for spiritual practice. Secondly, I was old for any yoga practice. I also had many shortcomings. Yet the Supreme Lord has blessed me with his vision in my later age.

I think the Lord has made an example out of me. My life and blessing of the Lord shows that even the greatest sinner has a chance of redemption if he wishes from the bottom of his heart. I also would like to state that whatever be our past; whether we were the greatest sinner or continue to do wrong things due to lack of will power, the Supreme Lord will bless us if we surrender unto him. The Lord does not consider our past or our drawbacks because the Lord knows that we have committed sins under the influence of Satan. **The Lord is waiting for us to surrender unto him so that he can defeat Satan and redeem us.**

Therefore, I can conclude that it is the will of the Lord that this book be written by me. Nothing happens by chance in this universe. The Lord works in mysterious ways and makes us believe that it is due to our effort. Supreme Lord gradually revealed the secret of himself, the angels and how the universe was created.

I want the Muslim community and the Middle Eastern religions to understand the glory of Supreme Lord on the basis of my experience. I don't claim to have studied the Holy Quran thoroughly from the beginning to end. Yet I went through the Surahs of Holy Quran and picked up the most important Surahs which reveal the glory of Supreme Lord and explain it to the Muslim community.

This book is a part of my earlier book titled **Rig-Veda Darshana** in Kannada and my English book titled **Glory of God, Man & the Universe**. I have selected a part of it and included it to improve the book and I have also incorporated drawings so that Muslims can understand their Holy Quran better.

I thank my nephew, N Manjunath for editing and proof reading this book. I also thank B.A. Harish, Foto Fantasy, Bengaluru for providing the Illustrations for the book.

Chapter – 1 SIGNIFICANCE OF DIVINE REVELATIONS

“Who knows what the truth is, or who may declare it? What is the proper path that leads to the gods? Their inferior abiding places (physical world) are beheld, as are those which (are situated) in superior (Yajna) rites are not known.” (Rig-Veda 3-54-5 Sayana Bhashya)

“..... We created the heavens and the earth and all that is between them. **We did not create them except in truth.** But most of them do not know.” (Holy Quran 44-38, 39)

(Indians believe creation is Maya (untruth). It just appears so because of our ignorance. This Maya theory is debunked by the above verse.)

Man can achieve anything in his life. He creates his own world within his mind. His wife and children, parents and relatives, business or work place, friends, his belief and religion are his universe. His mental universe is true for him and he believes in it completely. No one can change his world. He believes that his God is the true God and others are worshipping fictitious Gods.

His mind provides proof of his belief even if he is wrong. Therefore, each individual creates his own mental universe which is true for him. It all depends on one's own upbringing and surrounding atmosphere of family and friends. It is only because of these attitudes there are hundreds of faiths and beliefs on this earth. No one is ready to forego his belief and listen to the truths told by masters. Allah has sent many revelations to mankind to guide them but no one listens to them. In fact, people tortured and killed many masters all over the world including India.

There are thousands of belief systems among people on this earth. All of them trust that what they believe is true. They try to convert others to their faith. They are even ready to kill for their beliefs. Their teachers and pastors themselves mislead them. When there is so much of division in the world; who can decide who is right? Whom to believe? How to attain Allah's grace?

Allah has stated in the Holy Quran that every nation or tribe has received divine revelations. The difference between Arabs and other tribes who received divine revelation is that others could not understand the revelations and they started questioning the truth of the revelation as they could not understand it. Thus, they deviated from the true path.

Whereas the Arabs even though they too don't understand the Holy Quran they have single mindedly held on to it. The Muslims whole heartedly accept and believe in Allah as the Supreme Lord. They don't believe in any other scriptures because they believe that all revelations are corrupt and only the Holy Quran in its purest form is present in the world.

But do Muslims know the secret of Allah?

First of all the Muslims themselves don't understand the secret of Holy Quran. The Muslims also believe that they don't need other revelations to gain the blessings of Allah. For this reason, the Muslims have not understood the glory of Allah. As they are not interested in other revelations, they do not know the secret present in them. In fact, mankind has not understood the revelations **due to the ignorance and influence of Satan.**

Rig-Veda, Genesis, and Holy Quran are said to be divine revelations and Pyramid is the divine structure. If Pyramid is a divine structure and all revelations are divine, then all these revelations are from the same source. Therefore, the Supreme Lord of all these religions is one and the same. There is a common thread passing through these divine revelations although they came down on mankind thousands of years apart.

Mankind has failed to understand the message of divine revelations. It is imperative that a person be blessed by the Supreme Lord to understand His glory and truth behind these revelations.

Mankind doesn't know the secret hidden in the First Divine Revelation Rig-Veda which has come down in the language of the Gods.

Who and what is the glory of the Supreme Lord according to these revelations?

- Rig-Veda states that Indra is the Supreme Lord who creates, sustains and destroys the universe. His throne is placed upon the waters.
- Pyramid religion calls the Supreme Lord as Osiris and Pyramid is called as the tomb of Osiris. The eldest of all Gods, Osiris is present inside the Pyramid.
- Jews call the Lord as Yahweh. According to them Yahweh is sitting on the throne above the clouds. He created the First Adam in the Garden of Eden.
- Christians call the Lord as Jehovah. They too believe that Jehovah is sitting on the throne above the clouds and ruling the universe.
- Holy Quran states that Allah is sitting on the throne above the water.

Allah is called by different names according to one's mother tongue but the glory of Allah is the same in all these revelations. Therefore, to understand the Holy Quran, I believe it may be divided into four parts.

- The first part is Quran revelation that came during the war to establish Islam. This part has no relevance today as Islam has already been established. (Holy Quran 7-56 "And **do not make mischief on the earth after it has been set in order.**")
- Second, verses which glorify the Prophets of Semitic religion which may be read as glory of Allah and as a reminder on how Allah will bless those who are his servants.
- The third part states the socio-economic condition of the society and gives guidance to lead life in a rightful manner.
- The fourth part is the verses that give a certain insight into the secret of Allah. I have taken a few verses from this part to explain the glory of Allah, Angels and the secret of creation.

“And believe in the Book which I have revealed and **which confirms the Scripture you already have**, and be not foremost among its deniers. Do not sell my signs for a trifling gain, and beware of My wrath.” (Holy Quran 2-41)

“And this Quran is such that it could not be composed by any unless it is revealed by Allah. **It is a confirmation of the revelation made before it and a detailed exposition of the Book.** Beyond doubt it is from the Lord of the entire Universe.” (Holy Quran 10-37)
(I am of the view that the above verse is speaking of Rig-Veda.)

The secret of universe is unending. The Muslims understand only the physical body and physical world. They believe that after death they will be buried inside the earth and will reside there with their dead body and will be resurrected at the time of Judgment Day.

If that is the case; why were the seven heavens created?

They have no understanding of the world of Allah, Angels, the subtle world and the secret of creation.

Jesus knew the glory of Allah and the truth of creation but did not teach his followers.

Jesus taught them in parables, a few simple truths about love of God, good neighborliness and proper way of living in the society. This was because the followers were ordinary farmers and fishermen who were illiterates.

Jesus knew that his period was not the right time for the revelation of the Kingdom of God, so he spoke in parables. He also knew that the true path would be revealed by God in future. The development of science was needed to understand the divine revelations.

Therefore, Jesus proclaimed that the Kingdom of God is near and asked the people to mend their ways and be ready when the time comes. He also told his disciples that **Paraclete (Comforter) would come and teach them everything and make clear the meaning of the scriptures in future.** Look at the following Biblical verses:

John 14-16: And I will pray the Father, and He will send you another Helper (Comforter), that He may abide with you forever.

John 14-26: But the Helper (Comforter), whom the Father will send in My name, He will teach you all things, and bring to your remembrance all things that I said to you.

John-7,8,9: Nevertheless, I tell you the truth. It is to your advantage that I go away; for if I do not go away; the Helper (Comforter) will not come to you; but if I depart, I will send Him to you. And when He has come, He will convict the world of sin, and of righteousness, and of judgment; of sin, because they do not believe in Me.

Christians believe that the Holy Spirit is the Comforter who has guided them on all aspects of Jesus' teachings.

Neither the Holy Spirit nor the Supreme Lord or gods will reveal anything beyond our understanding.

The Holy Spirit has all the knowledge but he won't reveal it without the approval of the Supreme Lord. This is the reason many great Masters could not understand the secret of the Kingdom of God.

The main teaching of Jesus was that the Kingdom of God is outside as well as within everybody. Look at the statement of Jesus:

Jesus replied, "The Kingdom of God does not come with your careful observation, nor will people say, 'here it is' or 'there it is' because the Kingdom of God is within you." (Luke 17:21)

Jesus says - the kingdom (heaven) is inside you and it is outside you. (Gospel of Thomas)

But Jesus did not explain further on this statement. The above statements imply that all the heavens are within the body and one need not look anywhere to realize God because the human body is the replica of the macrocosm. Each and every man has an opportunity to ascend to heaven and be free of bondage by exploring the Kingdom of God within. He can achieve immortality and go to the abode of Allah in this life itself. Now let us read this verse of the Bible.

Mathew 7-13, 14: "Enter through the narrow gate. For wide is the gate and broad is the road that leads to destruction, and many enter through it. But small is the gate and narrow the road that leads to life and only a few find it."

Supreme Lord has revealed the secret of these statements to me.

The meaning of the above verse is that if a man dies a normal death he won't achieve immortality or go to the abode of the Lord. The physical body becomes one with the earth and *holy spirit-mind* of a person will go to one of the seven heavens created by Elohim. Here the person will not have a life as we see on earth. It is because he won't have sense organs and a physical body.

Normal people will go to one of the seven heavens according to one's deeds on earth. Thoughts present in the *spirit body-mind* (called ghost) will be active but he cannot interact with others without sense organs. They can express their strong thoughts to others.

Each heaven has a different kind of settings and those who go to the seventh heaven will be with Angels and live happily. After sometime all those who reside in the seven heavens will have to come back to earth to undergo life lessons.

Those who understand the secret of the Kingdom of God within their body would also realize the meaning of broad gate and narrow gate. A person guided by the teacher will go directly to the abode of Allah through the narrow gate. Those who go through the narrow gate achieve immortality and will remain with the Lord forever. **Judgment Day has no meaning for those who leave the earth through the narrow gate.**

Jesus states that even if one prophesies and performs miracles without knowing the narrow gate will not enter the abode of Allah. Those who don't know about these gates will have to wait till the day of Qiyamat to go to the abode of the Lord.

**Jesus says that entering heaven is not as easy
as believed by the Christians.**

Only a few find it. True Christians may go to heaven created by Elohim but they cannot enter the Garden of Eden. They have to come back to earth after a certain period. All believers do not gain entrance to the Garden of Eden till the Judgment Day.

“Many will say to me on that day, Lord, Lord, did we not prophesy in your name and in your name drive out demons and, in your name, perform miracles?” (Mathew 7-22)

But Jesus rejects them on Judgment Day. All prayers and miracles performed by Christians are of no use because it may lead them to heaven created by Elohim but they cannot reach the Garden of Eden. One has to go through the narrow gate to reach the Supreme Lord who is present beyond this universe or wait till the **Day of Judgment**.

Do the Christians see the Kingdom of God within them?

**Muslims have a wrong notion that by killing someone in the name of
Allah they can enter Paradise.**

Chapter - 2

ALL CREATION IS BY WATER &THE HOLY SPIRIT

“And He it is Who has joined the two seas; one sweet and palatable and the other salt and bitter; and He has set a barrier and an insurmountable obstruction between the two that keeps them apart.” (Holy Quran 25-53)

The Holy Quran does not give any details regarding the Kingdom of God which is present within the human body but it speaks about Heavenly Adam created in the Paradise. Although Prophet Mohammed (PBUH) received the revelation, Muslims could not grasp the inner meaning of the Holy Quran. It is because the development of science is a prerequisite to understand revelation.

According to Prophet Mohammed’s (PBUH) life story he crossed the seven heavens, journeyed to the highest heaven of Allah, saw the Lord, spoke with him and sought Allah’s blessing on his followers.

It is called ‘Miraj’ in Arabic. It should be noted that no one can go to the seven heavens and Allah’s world with their physical body. This is the reason angel Gabriel purified the Prophet’s inner body to take him to the presence of Allah. This shows that within this physical body there are other bodies too.

1. The causal body or Heavenly Adam is created in the abode of Allah.
2. Our subtle body is the replica of the universe and it has a personality. He is called Universal Man or Virat Purusha in Rig-Veda.
(For this reason the ancients call “microcosm is the replica of macrocosm”)
3. Elohim creates the physical body for the soul. This body encompasses the above two bodies. This physical body too has two other bodies and they are;
 - The physical body functions because of Breath (Holy Spirit) and it is called Body of Holy Spirit (or called PranamayaSharira by Hindus).
 - Another is the Body of Mind (ManomayaSharira). Whatever is recorded by Holy Spirit is our mind.

Therefore our personality is nothing but the personality of *Holy Spirit and Mind.*

All these bodies were created to fulfill the desires of the soul which appears like a candle light in a windless space; our true being. **The only purpose of creation is to fulfill the desire of all souls as they cannot enjoy the earthly life in their original form.**

Holy Quran 3-14 states: “People are normally tempted by the lure of women, children, treasures of gold and silver, horses of mark, cattle and plantations. These are the enjoyment in the life of this world; but with Allah lies a goodly abode to return to.”

After undergoing the life experience, very few people think about “Who are we? What is the purpose of our birth on earth?”

To guide such people and to mankind in general, revelation has come down to lead them back to Allah. Muslims have very limited understanding about Allah. They believe that Allah has no form but He takes the form by wearing the Breath (Holy Spirit) as body and appears similar to our soul. Allah also appears in human form. Now let us see how the universe was created.

“And He it is Who created the heavens and the earth in six days- and (before that) His **Throne was upon the waters....**” (11-7)

What is the meaning of this statement? What is this water mentioned in the Holy Quran?

Scientists believe that life originated in the sea and it is also true. Therefore, many Muslims believe the Throne of Allah is above the sea. Some give the comparison of Atlantic Ocean and Pacific Ocean or Indian Ocean to this statement of Holy Quran. When scientists observe the meeting places of these oceans, even normal people can observe that there is a barrier between these seas and they both don't mix with each other completely. Therefore a few Muslims believe that the two seas stated in Holy Quran may be these seas. Let us read a few verses on water.

“And He it is Who has joined the two seas; one sweet and palatable and the other salt and bitter; and He has set a barrier and an insurmountable obstruction between the two that keeps them apart.” (25-53)

“He unleashed the two seas so that they merge together, and yet there is a barrier between them which they may not overstep.” (55-19, 20)

“We made every living being out of water.” (21-30)

The Holy Quran states not only man but all species were created by water. It speaks about two seas; which sea is it and where is it?

Let us also see what the other divine revelations say about water:

- The Rig-Veda states that everything is created by water and the throne is established above the water.
- The Pyramid texts state that all creation originated in water and gets dissolved in water.
- The Genesis too states that there was water in the beginning.

According to all these revelations water was the source of creation. The Holy Quran is not speaking about seas of the earth. To understand what these two oceans are, we will have to look at the Holy Quran to understand how the universe was destroyed.

Destruction of the Universe

“Did the unbelievers not realize that the heavens and the earth were one solid mass, then We tore them apart, and **We made every living being out of water?** Will they, then not believe (that We created all this)?” (Holy Quran 21-30)

“On that day **We shall roll up the heavens like a scroll for writing.** Even as We originated the creation first so **We shall repeat it.** This is a promise binding on Us; and so We shall do.” (Holy Quran 21-104)
(According to this verse the creation and dissolution is cyclic.)

“O mankind, fear the (wrath of) your Lord! Indeed, the quake of the Hour (of Judgment) will be an awesome thing.” (Holy Quran 22-1)

“Then there will simply be one single blast, and all will have gathered before us.” (Holy Quran 36-53)

The unbelievers say: “Shall we direct you to the man who tells you that when you have been utterly broken to pieces, you will be raised to life again?” (Holy Quran 34-7)

Lord withdraws the four forces (Vayu/Holy Spirit) of nature from the creation of the universe. While withdrawing the forces there will be a great vibration. Thereafter there will be one single universal blast in the process of withdrawal.

All galaxies, stars and planetary systems will explode and all the atoms will disintegrate. Atoms will become lifeless sub-atomic particles and will be blown across the space.

Then these lifeless fundamental particles will be gathered like a heap of sea together by the will of the Lord. Immediately all Adams will return to the presence of Allah in the Garden of Eden.

When lifeless fundamental particles are gathered, they will behave like an ocean (one solid mass of water). Heaven and earth will become one and there will be no sky as it will be occupied by water. The lifeless sub-atomic particle of ocean is called **Primordial Ocean**. This ocean is so huge that our mind cannot visualize or measure it.

Four forces will become one force and it is called Holy Spirit in the scriptures. The Holy Spirit will move on the surface of the water. This shows that Force and Matter are different and they are not interchangeable as believed by the scientists.

The Holy Quran states that there are two kinds of ocean in this Primordial Ocean; while one ocean is sweet, the other is bitter and salty. Allah and the Angels reside in the sweet ocean and Satan and the demons reside in the salt and bitter ocean. These oceans do not mix with each other as there is a barrier between them but Allah or Satan can cross over to the other side. Normally Angels don't cross over but Satan and his followers cross over to trouble the Angels and humans. Remember that the Satan and demons are the opposite pole of Universal Mind.

The scientists in their search for answers to the riddle of the universe state that the universe is governed by four forces of nature called Gravitational force, Electro-magnetic force, Strong force and Weak force. These forces have originated from the Holy Spirit. Allah at the time of dissolution withdraws these forces and immediately the universe will be blown off. Once again, these forces become one and it will move on the surface of Primordial Ocean.

Scientists also state that if the observable universe is created by matter, then there should be anti-matter as well. They are searching the deepest corners of the universe to find anti-matter. Till now they have not found it and they will not find it in future also because **salt and bitter ocean is the ocean of anti-matter** and it is covered by sweet ocean on all sides.

Rig-Veda state that when Satan overpowered the sweet ocean, Allah fought with him, defeated and pushed him into the bottom of the pit and closed the pit in the universe. **The salt and bitter ocean in which the demons live is covered on all sides by the sweet ocean leaving a small passage as a well and it is closed by Allah.** Allah established his rule over the Primordial Ocean and placed his throne above the ocean. Therefore, I think the search for anti-matter is in vain.

Jews and Christians call Breath as Holy Spirit and Indians call it as Vayu/Prana. When the universe is dissolved Holy Spirit loses its personality. Thereafter Holy Spirit cannot interact with lifeless fundamental particles although it is surrounding the Ocean. We have read that the Holy Spirit cannot create nor do anything on its own. The Holy Spirit becomes powerful only when someone uses it. Thereafter Allah gives personality and mind to Holy Spirit within creation.

Angels use water and Breath for creation and for every activity that happens in the universe.

According to the Christian view, **Holy Spirit has three divine works**, i.e., he is involved in creation, imparts life and gives revelation and prophecy. The Holy Spirit will guide us into all truths and he will teach us all things by way of revelation. According to their belief, there is not a truth we need to know into which the Holy Spirit is unprepared to guide us. It is because he was present since the beginning of creation and he has recorded everything that has taken place until now.

The Christians also believe that the Holy Spirit mission includes creation, inspiration, conviction, regeneration, sanctification and equips persons for effective service. It is also said that the Holy Spirit abides in all animate and inanimate bodies because he is involved in the creation of everything that has happened. When a person is blessed by the Holy Spirit; the good work begun will be finished, the holy thoughts, heavenly affections and Christ like action will take place and impure thoughts, perverse sentiments and rebellious acts will be driven out.

However, we have read that the Holy Spirit or the Supreme Lord won't reveal anything beyond the understanding of man. Any person who wants to learn something, he has to put effort to learn new things. Allah guides those who reason and struggle to find new knowledge.

Jesus states: "And so I tell you, every kind of sin and slander can be forgiven, but blasphemy against the spirit will not be forgiven. Anyone who speaks a word against the Son of Man will be forgiven, but anyone who speaks against the Holy Spirit will not be forgiven, either in this age (world) or in the age (world) to come." (Mathew 12-31, 32)

Many people especially in India worship the Holy Spirit as a deity. They invoke and place the Holy Spirit in the idol and worship it and it is called Deity of Holy Spirit. The Muslims are averse to worship of the deity of Holy Spirit. Holy Spirit even as a deity cannot be insulted.

Deity of Holy Spirit can bless or curse a person. Therefore, they should just keep quiet or chant Allah's name and move on but should not insult the deity.

According to Rig-Veda Holy Spirit is appointed as ruler of creation by the Supreme Lord.

and the Gods. If the Holy Spirit withdraws himself the universe would collapse. Similarly, we shall die if Holy Spirit withdraws himself from the physical body. So, this great God should not be insulted even if he is present in the idol as Deity of Holy Spirit.

Let us now see how the Holy Spirit is involved in creation. Angels use him as a creative force by dividing him as "Five Forces" of nature. Thereafter Holy Spirit gains personality. We have seen that these forces are

- Gravitational force,
- Electro-magnetic force,
- Strong force,
- Weak force and
- Dissolution force.

The dissolution force withdraws all the other four forces at the time of dissolution by the command of the Supreme Lord. Vedic scriptures call these forces as

- Prana Vayu,
- Apana Vayu,
- Samana Vayu,
- Vyana Vayu and
- Udana Vayu.

The universe and the three bodies, i.e., physical body, subtle body and causal body function due to the presence of Vayu/Holy Spirit. After the dissolution all forces once again become one force moving upon the Primordial Ocean. Then the soul our true self goes back to the presence of Allah.

The Holy Spirit is somewhat similar to electricity. Electricity cannot be used directly without controlling its flow. The scientists use electricity in all machinery and gadgets by varying the electrical current by step-up or step-down transformers, capacitors, resistors, etc. Holy Spirit cannot function on its own similarly electricity too cannot function on its own. The difference between electricity and Holy Spirit is; electricity is the flow of electrons whereas Holy Spirit is the creative force of the universe and it is eternal.

Chapter – 3

GLORY OF DIVINE MIND ALLAH

Holy Quran 10-2 and 3 “Surely your Lord is Allah, Who created the heavens and the earth in six days, then established Himself on the Throne, governing all affairs of the universe. None may intercede with Him except after obtaining His leave. Such is Allah, your Lord; do therefore serve Him. Will you not take heed?”

Allah has no form because Mind has no form

Let us briefly study the process of creation. According to Genesis, darkness was everywhere in the beginning, nothing was visible. But within the womb of this darkness were present the Holy Spirit and Primordial Ocean. The Primordial Ocean has two oceans; one sweet ocean and the other salt & bitter ocean.

According to Rig-Veda from this darkness arose an imperceptible form with heat. In this imperceptible form, the seed of creation was present with a desire to create the universe in it. If there was desire in that imperceptible form, then it must be the Universal Mind. The karma of all species was present in it. That means that we too are eternal beings. To fulfill our karmas, the Universal Mind starts the creation.

The Universal Mind first enters the Holy Spirit and by its will power takes the Holy Spirit along with it and enters the two oceans. One pole of the Universal Mind enters the sweet ocean along with the Holy Spirit. The sweet ocean gets charged up by the Holy Spirit and flows upwards for creation. Similarly the opposite pole of the Universal Mind enters the salt and bitter ocean along with the Holy Spirit. The salt and bitter ocean also gets charged up by the Holy Spirit and flows downwards for creation.

**Mind always has two poles of opposites,
Universal Divine Mind and Universal Demonic Mind.**

The Universal Mind represents both the poles and it is eternal and imperceptible. It is the creator, sustainer and destructor of this universe. When the time comes for dissolution of the universe, the Universal Mind withdraws the forces of creation.

Divine Mind represents Light, Wisdom and Love; and Demonic Mind represents Darkness, Ignorance and Hate. Universal Divine Mind is the Supreme Lord and Universal Demonic Mind is called Satan (or Vrtrasura by Rig-Veda)

It does not mean Satan has no knowledge. Allah and Satan have all the knowledge, because if one pole of mind is aware of any knowledge, simultaneously the other part of the pole will also know. Both are equally strong. But Satan is the enemy of Allah; the enemy of Light, Wisdom and Love. Allah has created the universe and all species but **all species and mankind is overpowered by Satan.** When we understand both the poles of the Universal Mind, then we come to know that:

Mind is Allah; Mind is Satan

Mind is light; Mind is darkness
 Mind is consciousness. If there is conscious then there is mind.
 Mind has infinite knowledge
 Divine Mind is the Creator, Sustainer and Destroyer of the universe
 Satan represents darkness and ignorance

The question is; who has occupied our Mind; Allah or Satan?

The King of Demons, Satan thrives in darkness and overpowers all species including humans with his power of darkness and ignorance. The Kingdom of Heaven present within us is not visible because Satan has overpowered us.

What is the test whether our mind is occupied by Allah or Satan? When we close the eyes and look within; if we can see the Kingdom of God then we are under the protection of Allah. If we cannot see anything within us; that means we are ruled by Satan. Everyone except for those who are enlightened are under the influence of Satan. Satan has taken over our mind and he controls all our activities.

In the beginning of creation, the Demon King Satan covered the Sun and upward flowing Sweet Ocean with Darkness and Ignorance and built a fortress around the Sweet Ocean. He took the form of a Leviathan Beast and slept around the fort. The Sun was covered in darkness and the Sweet Ocean stopped flowing upwards and the creation was stopped. Thereafter Supreme Lord fought with Satan, cut him into pieces and pushed him into the Salt and Bitter Ocean and covered the pit.

The Supreme Lord is ruling this universe but humans are ruled by Satan.

Although all species are created by the Supreme Lord everyone is overpowered by darkness and ignorance and we are not aware of it. In this context, I believe this book will show the true way to understand the glory of the Supreme Lord.

One may pose as an enlightened person, Rabbi, saint, Caliph or an orator; if he cannot see the Kingdom of Heaven within him, then he is just a scholar. They are yet to reach the goal. All are under the grip of Satan. Therefore, **our body is called "The House of Demons"** by Rig-Veda.

We must understand one thing; we cannot destroy the Satanic Mind nor can we separate Satan from our mind. It is because Satan is part of our mind. We can only ask Allah to push him into the nether world and close the pit. Thereafter he will reside in the salt and bitter ocean and not trouble us any further.

Supreme Lord is present within our heart centre in the subtle body. In between the chest there is a closed cave which appears like a full stop in golden colour. This cave opens in a circular way and we can ask the Lord to come up from the cave. Supreme Lord is just a witness to everything happening within us. Supreme Lord is aware of our struggles and happiness but he will not interfere with us.

Because we wanted to come down to earth and enjoy the earthly life.

Happiness does not come alone, along with it comes sorrow and pain. We are responsible for our actions and for our happiness or sorrow.

It is because our mind is driven by Satan. Look at the history of mankind. Most heinous crime has been committed by man. He has killed billions of people yet his thirst for blood is not satisfied. Humans think that they are advanced and civilized yet killing and slavery persists in the world. The life of animals is much better than humans. They only kill for food.

Even though Supreme Lord is within us, He won't fight with Satan. Supreme Lord is seeing everything but He does not interfere in our matter. It is because we are unaware that Satan has occupied us and is ruling our body and mind. Therefore even if we pray, it is the satanic mind which is praying. He won't allow us to go in the right path. The qualities of Satan are power hungry, anger, desire, jealousy, hatred, violence and desire to destroy nations and humanity.

Satan always tries to divert us from the true path of Supreme Lord. It may seem to others that they are very pious and follow all the instructions of the Holy Quran. A person may think he is doing service to Allah by hating other religions, creating disharmony in the society and killing in the name of Allah. Some people think that by killing in the path of Allah, they will directly go to Paradise. Look at the verses of the Holy Quran:

“O people! Follow not in the footsteps of Satan. For surely he is your open enemy; he only commands you to do evil and commit acts of indecency and to ascribe to Allah the things concerning which you have no knowledge (that Satan really is their source). (Holy Quran 2-168, 169)

“If the God-fearing are instigated by any suggestion of Satan, they instantly become alert. Where after they clearly perceive the Right Way. As for their brethren (the Satans), they draw them deeper into error and do not relax in their efforts.”
(Holy Quran 7-201, 202)

Those who terrorize people create disharmony in the society, who preach hatred or instigate people to commit sins in the name of Allah must understand that their acts are directed by Satan. One may pray five times a day but that means nothing to Allah. For example, millions of people are praying five times a day, yet no one has received the grace of Allah, why? It is because no one knows the true way to please Allah.

Pit of the demonic world

We have understood that our bodies are made up of Sweet Water, it flows upwards and Salt and Bitter Water flows downwards. A person who can see sweet waters flowing upwards within him and he can also observe a well just below the lowest heaven, i.e., near the lower part of the pubic region. Sweet Water flows upwards from this well. When one sees within the well, it appears dark. This well is the pit or the path which leads to the domain of the demons.

To explain my experience, for a few months I was observing this well during meditation near the pubic region. It appeared dark within the well. I was experiencing an upward movement of water from the point of well. I did not understand the significance of this well. One day while I was in communion with the Lord, a thought appeared that the inside of this well leads to the domain of demons. Suddenly with my will power I placed a lid on the well and locked

it and gave the key to the Lord. All my actions happened within a few seconds of realizing the significance of the well. It happened so suddenly that I had no time to analyze the thought. From that day onwards I don't see the darkness of the well but I see it as covered and locked.

My experience explains the above verse that creation and all life forms are created by these two types of waters. **Demons have risen from the lower world through this well. They have occupied every human and all species.** Satan has come up from the lower world and he has stopped the upward flowing water to be still, covered the Sun in darkness. It is because of this that the Kingdom of Heaven is not visible within us.

According to Rig-Veda, along with Satan, other demons also rise from the lower world and **they steal the knowledge of Allah and hide it in a cave so that humans may not find it.** All the knowledge is within us but because of demons we are unaware of it. Therefore we don't see anything within our body. Only the Lord can deliver us from these demons and remove the darkness within us.

Universe is not troubled by Satan as he is defeated but all species are occupied by demons. Look at the verse below.

Allah delivers us from the Darkness of Satan.

“Through which Allah shows to all who seek to please Him the paths leading to safety. **He brings them out, by His leave, from darkness to light** and directs them on to the Straight Way.” (Holy Quran 5-16)

“Allah is the Guardian of those who believe, **He brings them out of every darkness into light.** And those who disbelieve, their guardians are the evil ones; they bring them out of light into all kinds of darkness. These are destined for the fire, and there shall they abide.” (Holy Quran 2-257)

(The above verse clearly states that Allah will save those who are in the path of light. Demons will not allow us to go towards light. It is a struggle we have to overcome but we don't know the path. Praying five times a day is not enough. We must know the proper path as told in Rig-Veda, the heavenly scripture. In ignorance we commit many sins for which we have to pay. Also see the verses below.)

“... This is a book which We have revealed to you **that you may bring forth mankind from every kind of darkness into light,** and direct them, with the leave of their Lord, to the Way of the Mighty, the Innately Praiseworthy.” (Holy Quran 14-1)

“... It is Allah alone Who guides to the Truth ...” (Holy Quran 10-35)
(We cannot know the path without the blessings of Allah)

Ordinary people go to one of the seven heavens but those who have committed grave sins go to hell after death. Enemies of humanity even if they are Muslims will not go to Paradise after their death. Jesus has stated that going to Paradise is not as easy as everyone believe. Very few will reach Paradise and the rest of humanity will have to wait till the Judgment Day.

Although Satan has occupied our body and submerged us in Darkness and Ignorance, his full power will not entirely manifest on ordinary people. Ordinary people can be instigated but usually they won't be troubled by him. Satan and his deputies' full powers manifest only on those who have political power, money power or on people having evil intentions. This is the reason many political leaders have committed heinous crimes against their own people, against other nations, against humanity and killed millions of people. Politics is the sure way to Hell if they are not in the path of Light. This shows that political power is the most dangerous tool of Satan.

The second dangerous power is money power. Certain bankers, multinational companies and rich people have committed heinous crimes against humanity which has been documented. They lend money and instigate war between nations, treat ordinary people as slaves and terrorize nations to follow their dictates.

Cruel people need no excuse to commit grave sins. Evil people in the name of political ideology or some organization or religion will commit serious crimes in the society. This is the reason Jesus stated that ordinary people are blessed.

When a person starts worshipping the Lord, Satan and his deputies get annoyed and they stop our progress in worship. Demons make us to fail in our worship time and again. Remember that Satan and his deputies work on the mental plane and we won't even know that break in our worship is due to demons.

Glory of Allah

Let us now see how Allah and Satan appear in the universe.

- Allah is imperceptible as he has no form and he represents Divine Mind, The heat inherent in Universal Divine Mind appears as Light when it enters the Holy Spirit surrounding the Primordial Ocean. Hence Allah appears as Flame, a candle light in windless space. Allah also appears in human form to slaughter Satan. Allah is always fighting Satan in one person or the other. Therefore Allah is called the warrior God. Allah fights only with demons.
- Similarly, Satan is also imperceptible and represents Demonic Mind. He is the king of demons and he hates Light-Wisdom-Love of Allah. Satan resides in darkness. According to Rig-Veda when angels manifested the Sun in the sweet ocean, Satan became angry due to the effulgence of the Sun and he rose from the nether world, crossed over to the sweet ocean, and covered the Sun and the sweet water with his power of darkness and ignorance. Satan built a fort around the Sweet ocean, took the form of Leviathan Beast (a serpent with hands and legs) and slept around it.

In the universe, Allah defeated Satan and pushed him to the lower world and let the creation continue by angels. But our body, a replica of the universe, is occupied by demons that are present within us. Therefore we cannot see the Kingdom of God present within us. **When we worship Allah in the right way**, He will be pleased with our prayer, defeat Satan and redeem us.

Allah is always fighting Satan within His close devotees. Therefore He is called a warrior God. Allah while fighting with Satan takes the form of a prince and defeats him. The sages of Paradise have seen Him as a 16 year old with a lean body and golden rays emitting from His body. Allah in His hand holds the Thunderbolt at the time of war with Satan. If anyone wants to see Allah in this form, one has to perform Fire Sacrifice and offer Him the

Heavenly Wine present within us. Otherwise in all other forms of worship, Allah appears as Flame. Let us now look at other religions and how they saw Allah.

- According to Rig-Veda, Indra appears as Flame but He also appears in human form to receive the offerings. Hindus place a lamp called Nanda Deepa in front of the deity and this represents soul.
- Within the Pyramid, Osiris appears as Flame and He also in human form. The word Pyramid itself means Fire in the Middle.
- Moses saw Lord Yahweh as Burning Bush. That means Allah appears like Flame.
- On the Pentecost Day, Christians saw Fire, Holy Spirit and Tongues of Fire descend upon the head of Apostles and a few Christians. Allah and our soul appears like Tongues of Fire. I believe that it was the soul of Jesus which descended on that day as promised by Jesus.
- The Holy Quran also states that Allah appears as Flame.

Allah represents Light and Flame

An imperceptible form Allah appears like Flame when He wears Breath as His body. Muslims believe that Allah is Light (Noor) but Light also has shape. Sun, Moon and a candle light have a form. Similarly Allah appears like a candle Light/ Flame. Allah is Light but Lord is also Divine Mind. Allah by his mind power can take any form as the devotee wishes. Let us now look at the verses of the Holy Quran to prove that Allah appears as Flame.

“They seek to extinguish the Light of Allah by blowing through their mouths; but Allah refuses everything except that **He will perfect His Light** howsoever the unbelievers might abhor it.” (Holy Quran 9-32)

There is no need to perfect Allah’s Light. Allah has placed a part of his Light within all species and this Light is called our soul. Every soul has its own divine mind and desires. This soul resides within the eight-petal lotus which appears like a plantain flower. **Our soul is the one to be perfected.**

“Believers, turn to Allah in sincere repentance; may be your Lord will expunge your evil deeds and admit you to the Gardens beneath which rivers flow. This will be on the Day when Allah will not disgrace the Prophet and those who have embraced faith and are with him; **their light will be running before them** and on their right hands and they will say: “Our Lord, perfect for us our light and forgive us. Surely You have power over everything.” (Holy Quran 66-8)

Allah being Light can take human form, similarly our Light can also take human form in the abode of the Lord.

In Paradise we will have a body of Light/Flame and causal body will not be present there. Our Light cannot be perfected in Paradise and it must be perfected on earth itself because we were the ones who wanted the earthly life. As soon as we enter earth we are overpowered by Satan and forget who we are and commit many sins. We have to pay for our sins in heaven and earth itself because we committed sins through physical body created by Elohim.

Therefore we have to pray to Allah in this human birth to perfect us by defeating Satan. Otherwise we will have to wait till Judgment Day to reach Paradise where everyone will be judged according to their acts on earth.

After a certain time period, once again Allah starts the creation process. Once again angels create the universe and the earth. Then those people whose Light is not perfected and still have desires will have to take birth on earth once again to perfect their Light.

The Adam in Paradise has desires and wants to enjoy the beauty of earth created by the angels. Allah sends him down along with a causal body because Flame, our soul, cannot enjoy the earthly experiences. Allah also comes down along with Adam to protect him from Satan. If Allah does not come along with Adam then he will be sucked into eternal darkness by Satan. Therefore Allah resides in the cave of the chest centre of causal body of Adam to protect him from Satan.

As soon as Adam descends he will be covered by the subtle body which is the replica of the universe in which there are Angels and demons. Satan will immediately rise from the lower world and cover the Sun present in the subtle body and water with darkness and ignorance. It is because the pit of the lower world is open within us. Recall that our body is also made of water.

As soon as Satan covers us, we will forget that we are Adam of the Paradise. Thereafter Elohim creates the physical body for us and gives breath and mind for it to function on earth. Therefore this body is created by Elohim but we are actually Flame like Allah.

Holy Spirit as Flame

Muslims are not aware of the subtle bodies present within the physical body. Therefore few Muslims worship Allah as present inside the physical heart in the form of Light. Physical body functions because Holy Spirit is present in it. Holy Spirit records its experiences through the senses of our mind. This recording is called our thoughts and our mind.

Gradually during their prayer on physical heart, Holy Spirit present within us appears as Flame or as name of Allah. They start seeing Flame with their inner eye. When a person is completely merged in meditation of this Holy Spirit as Flame, he too will attain many mental powers. Remember that Holy Spirit is behind all miracles.

Allah may appear to them also because of their consistent effort. However they cannot enter the abode of Allah. As Jesus said we will have to go through the narrow gate to reach the abode of Allah. Therefore they will remain in one of the seven heavens or may sleep till the day of Qiyamat according to their faith.

Let us now see the difference between **Flame of Allah** and **Flame of Holy Spirit**. We have seen how the Holy Spirit appears as Flame. Allah is residing in the causal body's chest centre inside the cave. The door of the cave appears like a point which shines brightly. This point opens like a circular door and inside it will be Allah sitting on a Throne or shines like a Flame.

Allah is never in direct contact with Satan. Our soul too is never in contact with Satan as he is present in a closed plantain flower of subtle nerves. **Therefore it is said that; to see Allah, first we must be able to see Fire, Sun and the Holy Spirit within and above us.**

Chapter – 4

ELOHIM AND CREATION

Genesis 1-1: In the beginning God created the heavens and the earth. Now the earth was formless and empty, darkness was over the surface of the deep, and the Spirit of God was hovering over the waters.

According to Rig-Veda, when the time is ripe for creation, the Lord starts the creation process once again. Angels gather the ocean with their hands along with the Holy Spirit. The Primordial Ocean will compress and group together like lakes (ball) throughout the sweet ocean. **Thesegathering of water is called Sacred Lakes in Rig-Veda and Pyramid religion.** These lakes turn into the shape of a ball. These balls of lakes spin and swirl along with the Holy Spirit. This process produces intense radiation within the lake of Primordial Water.

This radiation turns the lake into a fire ball. Then the effulgence of angels covers the ball of fire and it shines brilliantly like the Sun. These fire balls turn into galaxies, stars and planetary systems. **The self-born sky manifests once again in the process of compression of Primordial Ocean.** Life on earth will bloom once again.

The Sun's brightness is because of the radiance of angels. The heat from the Sun is because of the fire ball inside the Sun. The Holy Spirit is in the middle of the Sun. The Holy Spirit (Prana) is spreading his power through the Sun rays and all species including humans are dependent on Prana to live. All species breathe Prana and air to survive on earth. The physical body is nourished by air and all functions of the physical body are dependent on Prana. Subtle bodies are nourished by Prana. If there is no Prana and air in the atmosphere all will die.

First galaxies were created and from it suns were reproduced. The Sun and the galaxies are called the eye of the angels. Angels are present in the centre of all galaxies and Suns. Hence they are present in our Sun also. Angels and Sun are present in all species including humans as we are created by them.

Within the radiance of the Sun, Elohim manifests. Therefore Elohim may be called self-born. Angels worship Elohim and follow his instructions. They are present within all stars, galaxies and all living beings. Therefore they are said to have many births. When humans worship Sun-Elohim, Elohim forgives our sins and declares to the Angels that we are sinless. Recall that two angels are recording our deeds. Therefore ancient Egyptians were worshipping Horus and Ra Gods. All humans and species are called as 'Cattle of Ra'. Vedic people still worship the Sun God daily and call him Prajapati, the Lord of all species.

Gods have given birth to Fire and Sun. Elohim along with the angels created the earth first and thereafter the life forms were created on earth. Elohim is the Lord of heaven and earth. Elohim created the seven heavens after creating the humans because animals and birds are not judged by gods. Only humans are judged because we are created in the image of the Supreme Lord and angels, a perfect creation on earth.

Why do Christians believe that Angels have wings like birds but we humans don't have wings?

Gods have given a chance for humanity to achieve immortality and escape from earthly life. No other species has a chance for their redemption. Hence it is only the human beings who are judged by gods.

The question arises as to who is greater among Allah and Elohim? Let us analyze the part of text at <http://www.donmehwest.com>)

The Jewish scripture Deuteronomy 10-17 gives the answer: "For the Lord your God is God of gods and Lord of lords, the great God, mighty and awesome, who shows no partiality and accepts no bribes."

The meaning of the above statement is "YHVH (Allah) is the God of Elohim".

In Hebrew Elohim means either God or Gods. It can be read both in the singular and plural forms. Elohim is the God who manifested in the radiance of the Sun and angels were the ones who created Sun. Therefore, Elohim and the angels are residing within the Sun.

Genesis speaks of two Adams. One created in Paradise and the other by Elohim on earth. Let us now see Genesis Chapter 1 on how earthly Adam was created.

Now, it is a curious fact of Hebrew that the word Elohim can mean either God or Gods -- that is, it can be read in both the singular and plural sense. Thus, we see that the word Elohim is used throughout the opening (Hebrew) passages of Genesis in which the creation is described up to and including the first of two Adams.

For these reasons, it is equally correct to translate the following opening passages of Genesis to read (Genesis 1:1, 2.3, 26):

- In the beginning THE GODS [Elohim] created the heavens and the earth.
(First the earth was created.)
- And THE GODS [Elohim] said, Let there be light.
(Sun was created)
- And THE GODS [Elohim] divided the light from the darkness.
(The earth rotated on its axis and Day and Night happened. Recall that a few planets don't rotate on their axis.)
- And THE GODS [Elohim] said, Let there be a firmament.
(7 heavens were created)
- And THE GODS [Elohim] said, Let US create Adam in OUR image.
(Physical man was created)

(Brackets are mine.)

Thus, the "first" (imperfect) Adam was created by the plural ELOHIM (the "us" in Genesis 1:26) over whom, according to Moses in Deuteronomy 10:17.

YHVH is "God of gods and Lord of lords."

It was not until the "Second" Adam (Genesis 2:6) that YHVH himself intervened to create a "perfected" mankind.

It is extremely important to remember that TWO versions of Adam, and not ONE, were created in Genesis. The "Imperfect" and "Perfect" Adams. They are as follows:

FIRST ADAM:

- "Let US make man in OUR image, in the likeness of OURSELVES." (Genesis 1:26)
- Male and female created simultaneously (1:27)
- By the ELOHIM, not YHVH (1:26)
- "Blessed" by them but not given a "soul" (1:28)
- And told to multiply (1:28)

SECOND ADAM:

- "YHVH fashioned man from the dust of the soil. Then he breathed into him aSOUL." (Genesis 2:5-7)
- Man created without woman (2:18)
- By YHVH, not the Elohim (2:8)
- And, unlike the first Adam, was given a SOUL (2:7)
- And also dominion over Paradise (2:15)

This shows that Adam of the physical body is created by Elohim and it has Prana (Holy Spirit) inherent in it from the mother.

But once the child is born, the heavenly Adam has to enter it and starts breathing otherwise the child will die.

Therefore, the Supreme Lord and Gods (Angels) are the creators of galaxies, star systems and physical body of all life forms on earth. Angels worship Elohim who is present in the sphere of the Sun.

Adam of the Garden of Eden was created first by the Supreme Lord. Adam also is an eternal being. Adam is a Light being like Yahweh but he has desire to enjoy earthly life. Therefore, Yahweh creates Adam's body and it is called Causal body or Heavenly Adam. It is the spirit body hence it is not of the earth soil. Elohim created the physical body from the Primordial Ocean for heavenly Adam to undergo the experience of earthly life. Causal and physical bodies are both called Adam by Genesis.

All life forms including humans have two Adams within them. This earthly Adam has to spiritually awaken for the heavenly Adam to go back once again to the presence of the Lord in the Garden of Eden. More details will be given later on this subject.

Genesis speaks of only two Adams but there is one more body called subtle body in which the angels and demons reside. Therefore we have three bodies; physical body, subtle body and causal body. Physical body of earth is called earthly Adam and causal body is called Heavenly Adam.

Along with these three bodies we have two more bodies belonging to physical body.

- One is Body of Holy Spirit (PranamayaSharira) and the other
- Body of Mind (ManomayaSharira).

These two bodies are present within the physical body. After the death of the physical body, it becomes one with the earth, the subtle body goes back to the Universe (Universal Man) and the *holy spirit-mind* body is judged by angels and Elohim. After death the *holy spirit-mind* will be judged and sent to one of the seven heavens.

Allah is an emperor; hence He does not do any work. Allah goes wherever He wishes. Allah fights with Satan to redeem his devotees. No one can question Allah. Allah is neither under the control of anyone nor do any angels question him. Whatever thought comes to Allah, the angels carry out the task. To give an example, our body is created by Elohim. If our mind wishes to drink water, the body cooperates and the hand takes the cup, fills it with water and drinks it. There is no effort from our mind. Similarly Allah's thought is carried out by the angels.

For this reason Deuteronomy 10-17 states:

“YHVH (Allah) is the God of Elohim.”

Creation of Five Elements

Let us now see how the five elements were created. The five elements are Space, Air, Fire, Water and Earth. We have read that everything is created by the sweet ocean. Therefore the **five elements are also created by the sweet ocean only.**

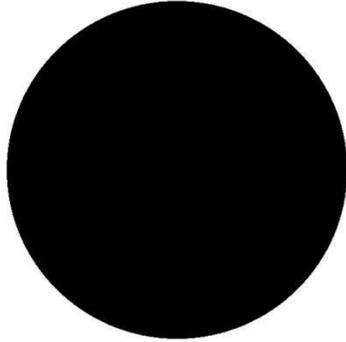

- **Space:** The Primordial Ocean was compressed by the Angels and it gathered water like a ball and turned itself into a fire ball throughout the universe. The effulgence of angels covered the fire ball and galaxies and Suns were created. In this process of creation of galaxies, empty space was born throughout the Primordial Ocean. Therefore empty space is said to be self-born.
- **Air/Breath:** The Holy Spirit as Breath is present throughout and beyond the universe. Holy Spirit cannot create anything on his own. Someone has to make use of it. The angels make use of Holy Spirit for creation. Air is very essential for all living beings. They cannot live on earth without air. Air on earth contains oxygen, carbon-di-oxide, nitrogen, etc. These are nothing but another form or grouping of sub-atomic particles.
- **Fire:** Originally fire was created in the sweet ocean by the angels. But on earth, oxygen interacts with combustible materials to produce fire. These are nothing but atomic particles.
- **Water:** The sweet ocean is also made up of lifeless sub-atomic particles. But water on earth is produced by a mixture of hydrogen and oxygen atoms. Therefore this is another form of sub-atomic particles. Water is not an ordinary thing. It has memory and the capacity to attract Holy Spirit. It purifies us spiritually and bathing with water refreshes the physical body.
- **Earth:** During the creation of Sun, a few residue balls of fire separated from the Sun. This gradually cooled and became planets and moons. Seven heavens are present in between the earth and sun and hell exist below the earth.

In this manner, the angels created the universe from the Primordial Ocean. Whatever is present in the universe is nothing but the play of Primordial Ocean and the Holy Spirit. Even the species are created by this Primordial Ocean and Holy Spirit but the body contains DNA or

basic structures of cells. According to Rig-Veda Universal Divine Mind has given birth to these DNA or basic structures of cells and it is present throughout the universe.

Illustration - 1

Genesis 1-1: “In the beginning God created the heavens and the earth. Now the earth was formless and empty, **darkness was over the surface of the deep**, and the Spirit of God was hovering over the waters.”

Let us now remove the veil of Darkness and see what is inside the Darkness.

Illustration - 2

Within the womb of the Darkness is Holy Spirit and within Holy Spirit was earth without form.

The earth without form means; all physical world including galaxies, suns, planets and all living beings exploded and became lifeless fundamental particles of nature. It was gathered by Allah in one place and it looks like an ocean.

There were two kinds of oceans; the above one is Sweet Ocean and the below one is Salt & Bitter Ocean. There is a thin layer of separation between them. Hence they cannot mix with each other.

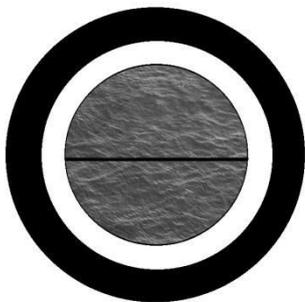

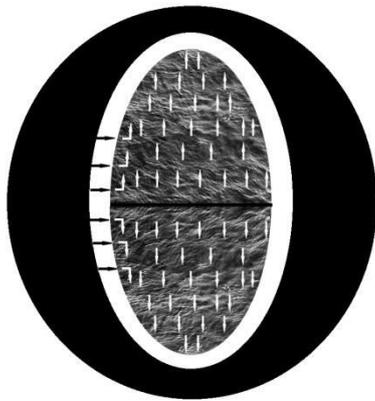

Illustration - 3

From this Darkness rose Universal Mind an imperceptible form. Universal Mind has two poles of opposites.

Universal Divine Mind enters Sweet Ocean along with Holy Spirit. The Sweet Ocean gets charged up by Holy Spirit and flows upward for creation.

Similarly, opposite pole of Universal Demonic Mind enters Salt and Bitter Ocean along with Holy Spirit. The Salt and Bitter Ocean also gets charged up by Holy Spirit and flows downward for creation.

Because of the flow of ocean, it appears in an elongated shape.

Allah and angels are present in Sweet Ocean.
Satan and demons are present in Salt & Bitter Ocean.

Illustration - 4

Angels created the Sun in Sweet Ocean.

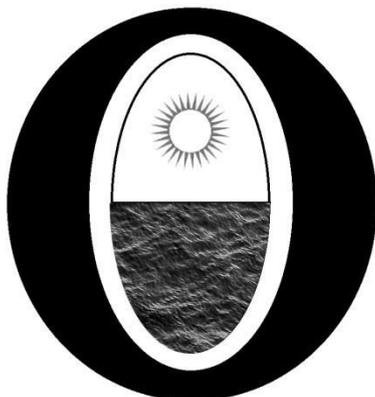

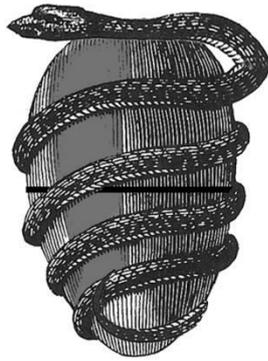

Illustration - 5

The effulgence of the Sun disturbed Satan who was living peacefully in Salt & Bitter Ocean. Satan got annoyed rose up from below and covered the Sun and Sweet Ocean with darkness, built a fort around Sweet Ocean. Satan took the form a Leviathan Beast and slept around the Ocean.

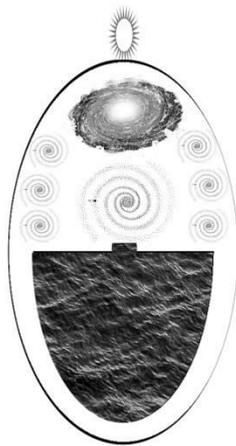

Microcosm is the replica of Macrocosm. Our subtle body is similarly occupied by Satan. Therefore we cannot see the “Kingdom of God” present within us. Hence we cannot see Allah and angels present within us.

Illustration - 6

The Sun was covered in darkness. Sweet water stopped flowing Upward and the creation was stopped. Thereafter Allah fought with Satan and slaughtered him and pushed him into the pit below and closed it. The Sweet Water covered the Salt & Bitter Ocean from all side so that Satan may not come up again.

Thereafter angels continued with creation. Allah established His Throne above the Sweet Ocean and watches everything happening in the universe.

The Universe is free from satanic influence but our subtle body a replica of the universe is occupied by Satan.

Chapter 5

IMPORTANT VERSES OF HOLY QURAN

Holy Quran 10-37: “And this Quran is such that it could not be composed by any unless it be revealed from Allah. **It is a confirmation of the revelation made before it and a detailed exposition of the Book.** Beyond doubt it is from the Lord of the entire Universe.”

According to me I find the following verses to be important in understanding the glory of Allah. I have not studied the Holy Quran in detail to expound on it as an authority. Initially I watched Islamic TV channels and was influenced by it to have a look at the Holy Quran as it was expressing the same teachings as Rig-Veda. Even I learned many things from watching the Biblical TV channels.

This has led me to study certain passages of their scriptures online. The Holy Quran is being distributed freely by Shanti Prakashana, Mangalore and Salam Centre, Bengaluru. In the course of my study I found that all religions are speaking the same truth but the followers had no understanding of the glory of God. Even after giving revelations to many tribes, people have deviated from them because they could not understand the revelations. This is how ancient people deviated from the revelation. Therefore, the Holy Quran states:

“And believe in the Book which I have revealed and **which confirms the scripture you already have**, and be not foremost among its deniers. Do not sell my signs for a trifling gain, and beware of My wrath.” (Holy Quran 2-41)

“And this Quran is such that it could not be composed by any unless it be revealed from Allah. **It is a confirmation of the revelation made before it and a detailed exposition of the Book.** Beyond doubt it is from the Lord of the entire Universe.” (Holy Quran 10-37)

But none could understand the message of the Holy Quran and other revelations. The progress of science was very important to understand revelations. Science has proved that everything in the universe is atoms only. They have also established and proved that the four forces of nature are responsible for the creation of universe and all species. But this much information is not enough to understand the glory of Allah. Allah has to bless a person and reveal His glory. This is the most important aspect of understanding the glory of Allah.

The Muslims too do not understand the Holy Quran yet they cling on to its message. They wholeheartedly accepted the Holy Quran and Allah without question. The Muslim kings slaughtered and looted millions of people in their frenzy to spread the message of the Holy Quran especially in Iran and India. All these happened because of satanic influences. We have already understood that **everyone is occupied by Satan** and our actions are driven by him. Now let us see a few verses of the Holy Quran.

Glory of Allah

“Your God is One God, there is no God but he; the Most Merciful, the Most Compassionate.”
(2-163)

“Surely your Lord is Allah, Who created the heavens and the earth in six days, then established Himself on the Throne, governing all affairs of the universe. None may intercede with Him except after obtaining His leave. Such is Allah, your Lord; do therefore serve Him. Will you not take heed?” (Holy Quran 10-2 and 3)

“The Most Compassionate Lord is settled on the Throne.” (Holy Quran 20-5)

“To Him belongs all that is in the heavens and all that is in the earth, and that is in between, and all that is beneath the soil.” (Holy Quran 20-6)

“And He it is Who created the heavens and the earth in six days- and (before that) His Throne was upon the waters....” (Holy Quran 11-7)

(Allah is the Supreme Lord; none can surpass him in his glory. The Lord’s Throne is on top of the universe/Purusha whose body contains billions of galaxies and star systems.)

“Verily He encompasses them and has counted them all.” (Holy Quran 19-94)

(Lord as Divine Mind has encompassed all gods, all species and the universe. The Lord knows each and every one of them.)

“It is Allah Who created the heavens and the earth and all that is between the two in six days; and then He established Himself on the Throne....” (Holy Quran 32-4)

(First the galaxies are created. Thereafter Sun and earth (planets) are created. After creating the earth, all species were created. Thereafter Elohim created seven heavens.)

“He governs from the heaven to the earth and then record (of this governance) goes up to Him in a day whose measure is a thousand years in your reckoning.”

(Holy Quran 32-5)

(Therefore, according to Holy Quran, it has taken six days, i.e., 6000 years to create earth and heaven. I would like to ask the scientists a question. How much time it would take the universe to get dissolved when all the forces are withdrawn at once? Therefore, it seems that 6000 years is sufficient to create the universe and all species. Holy Quran does not mention the age of the universe.)

“Allah is my Lord and your Lord, therefore, serve Him. That is the Straight Way.”

(Holy Quran 43-64)

“He it is Who is God in the heavens and the earth. He is the Most Wise, the All-knowing.

Blessed is He Who has dominion over the heavens and the earth and all that is between them. With Him is the knowledge of the Hour; and to Him you shall all be sent back.” (Holy Quran 43-84, 85)

“To Him belongs whosoever dwells on the heavens and on earth. Those (angels) that are with Him neither disdain to serve Him out of pride, nor do they weary of it.”

(Holy Quran 21-19)

(Angels are always awake. They neither close their eyes nor get tired like us. We get tired because of the physical body but angels do not have a physical body. They are present in the

Sun, star systems and galaxies. They are also present within all species. Therefore our body is the temple of Allah and Gods.)

Allah represents Light & Wisdom

Wisdom can only be in the mind, therefore Allah represents Divine Mind. With his will power Allah takes form of the Lord. Read the verses below.

“They seek to extinguish the Light of Allah by blowing through their mouths; but Allah refuses everything except that **He will perfect His Light** howsoever the unbelievers might abhor it.” (Holy Quran 9-32)

There is no need to perfect Allah’s Light. **Our Light is the one to be perfected.** Allah has placed part of his Light within all species and this Light is called our soul. Every soul has its own mind and desires. This soul resides within the eight-petal lotus. Our soul is an eternal being. In the beginning the soul was created but we don’t know when it was because many cycle of creation has taken place.

“Believers, turn to Allah in sincere repentance; may be your Lord will expunge your evil deeds and admit you to the Gardens beneath which rivers flow. This will be on the Day when Allah will not disgrace the Prophet and those who have embraced faith and are with him; **their light will be running before them** and on their right hands and they will say: “Our Lord, perfect for us our light and forgive us. Surely You have power over everything.” (Holy Quran 66-8)

We will have Light body in Paradise. All believers will have to wait till the Judgment Day for entering the Garden of Eden but they cannot enter the palace of the Lord. Only a perfect person can directly enter the palace and be with the Lord after his death on earth.

Allah is Light but can we see Allah

Allah is Light but the Lord is also Divine Mind. Mind has no form. But by his mind-power Allah can take any form as the devotee wishes. Allah wears the Breath as body. Allah and the angels appear in Hyper Space. Therefore, we cannot see with physical eyes but we can see with our inner eye.

Rig-Vedic sages in their knowledge about the abode of Allah have fixed Allah’s form as 16 years old, with slim body, wearing jewels and a crown. Allah is wearing a one piece garment and sitting on the Universal Throne.

I also saw Allah as stated above. I never prayed or knew who the Supreme Lord was. Yet in that auspicious moment in 2011, Allah blessed me with his vision.

If someone wants to see the Lord in human form as seen by the sages, then they have to perform Fire Sacrifice and offer Heavenly (Soma) Wine to the Lord. Only then Allah will appear in his form to receive the wine very dear to Him. Allah appears to those sages as they visualize them. Hence we must request Allah to give his vision in the form that Rig-Vedic sages saw.

Worship only Allah

“**Call upon your Lord with humility and in secret.** Surely, He does not love the transgressors. And do not make mischief in the earth after it has been set in order, and call

upon Him with fear and longing. Surely Allah's mercy is close to those who do good." (Holy Quran 7-55, 56)

(We have to pray in secret and not in a public gathering. Public prayer is only to show unity.)

"Truly it is only associating others with Allah in His Divinity that Allah does not forgive and forgives anything besides that to whomsoever He wills. Whoever associates others with Allah in His Divinity has indeed strayed far away. (Holy Quran 4-116)

(Here the verse is speaking about Allah being associated with the Deity of Holy Spirit/Prana Devata)

Rivers of Paradise

After the judgment of all of us, Allah blesses us to be happy in Paradise. All will be happily residing there. All their wishes will be fulfilled instantly. Many kinds of juices will be provided for their enjoyment. There are four kinds of rivers of juice flowing in Paradise. One is of pure water, the second is river of milk, the third is river of honey and the fourth is honey-coloured juice called **Soma Juice** in Rig-Veda. This is similar to an intoxicating drink of the earth but there is a difference. This does not cause hangover or cause any harm. So let us read some Surahs of Holy Quran.

"Here is the parable of paradise which the God-fearing have been promised: in it shall be rivers of incorruptible water; rivers of milk unchanging in taste, and rivers of wine, a delight to those that drink; and rivers of honey, pure honey...." (Holy Quran 47-15)

"They will be seated upon the couches set face to face; a cup filled with wine from its springs, will be passed around to them; white, sparkling (wine), a delight to the drinkers. There will neither be any harm in it for their body nor will it intoxicate their mind." (Holy Quran 37-45 to 48)

"This will be a gushing spring where from Allah's servants shall drink wine, a spring from which they will take out channels wherever they wish." (Holy Quran 76-6)

"Therein they shall be served a cup flavoured with ginger drawn from a spring (in Paradise) called Salsabil" (Holy Quran 76-17)

(This ginger juice will be served only when they drink too much wine.)

Where do these springs of juice originate from?

The springs originate from the highest point of Paradise.

Why is the Sweet Ocean sweet?

It is because all the juice of heaven, i.e., pure water, milk, honey and wine (Soma) is present in Sweet Ocean. It also contains all the medicinal properties. It is the Universal Divine Mind who mixes these juices to the ocean. Those who perform Fire Sacrifice extract the wine present in ocean and offer it to Allah for defeating Satan present within us.

No difference between men and women in Paradise

We have read that we are Light beings. Therefore, there is no difference between men and women. How can a Light have this difference? The difference between men and women is only in the creation of physical bodies created by Elohim. Similarly, all animals, birds, trees and plants belong to the same category as humans.

Once Allah perfects our Light then all the differences vanish. Sages of India statesometimes we are born as men and sometimes as women according to our deeds. They also state that if humans commit grave sins they may be born as animals. Let us see the below verse of Holy Quran on this.

“There is no animal that crawls on earth and no bird that flies with its two wings but are communities like you. We have neglected nothing in the Book (of decree). Then to the Lord will they all be mustered. (Holy Quran 6-38)

All creation sings his glory

“The seven heavens, the earth, and all that is within them give glory to Him. There is nothing but gives glory to Him with His praise, though you do not understand their hymns of praise. He is Most Forbearing, Exceedingly Forgiving.” (Holy Quran 17-44)

Heaven and Earth are living entities. Mother Earth is goddess and we all are her children. In fact the whole universe is a living entity. They have their own mind and they sing the glories of the Lord. They worship the Lord through the sound OM. NASA has recorded the sound emitting from the Sun which is similar to the sound of OM. When a person is advanced in spirituality, he listens continuously to the sound of OM emitting from within.

In fact humans including all species emanate this sound OM. This sound is the universal sound generated by the Supreme Lord himself. The universe is held by the Supreme Lord’s thought force by using this sound. Everything within the universe worships the Lord with this sound OM. Those who understand the significance of this sound, they have understood everything.

Normally sound is produced when two objects strike each other but this sound is produced singularly without striking another thing. Hence this sound is called Anahata sound which means sound produced without striking another object. Look at the Rig-Vedic mantra.

“These gigantic far reaching efforts (for creation) were put forth by you; you fixed them firm in your thought (OIndra).” (8-77-9 SB)

The universe has billions of galaxies, star systems, planets and life forms. The number of species present among these systems is unimaginable. All creation is held by the thought force of Allah. Compare this to our capacity. We cannot even hold one thought continuously for 10 seconds.

Let Allah be your guide

Our prayer and our obedience are to Allah alone and not to the command of any mortal including Imam, Pastor or priest. Listen to the words of Allah only.

“The life of this world is nothing but a sport and a pastime, and the life of the hereafter is far better for those who seek to ward off their ruin. Will you, then, not understand?” (Holy Quran 6-32)

(Few people think that without the physical body how we can enjoy the heavenly gifts. But Allah says Life in the Garden of Eden is far superior to the life on earth. In fact, it is not the

physical body which enjoys but it is our mind that enjoys. Physical body has a limitation to enjoy as it gets tired after sometime.)

“Lo, it is to Him alone that you cry and then, if He so wills, He removes the distress for which you had cried to Him. Then you forget the partners you had set up with Allah.” (Holy Quran 6-41)

“But when misfortune befell them from Us why did they not humble themselves? Their hearts had hardened and Satan had made their deeds seem fair to them. (Holy Quran 6-43)

Allah will direct us to the right path

“Except the one who created me; and, behold, it is He who will direct me to the Right Way.” (Holy Quran 43-27)

“Allah is my Lord and your Lord, therefore, serve Him. That is the Straight Way.” (Holy Quran 43-64)

“He it is Who is God in the heavens and the earth. He is the Most Wise, the All-knowing. Blessed is He Who has dominion over the heavens and the earth and all that is between them. With Him is the knowledge of the Hour; and to Him you shall all be sent back.” (Holy Quran 43-84, 85)

“All that is in the heavens and the earth extols the glory of Allah. He is the Most Mighty, the Most Wise. His is the dominion of the heavens and the earth. He gives life and causes death, and He has power over everything. He is the First and the Last, and the Manifest and the Hidden, and He has knowledge of everything.” (Holy Quran 57-1, 2, 3)

Is Allah too far from us?

Allah is present within the cave of our heart also.

“Surely We have created man, and We know the promptings of his heart, and We are nearer to him than even his jugular vein. Moreover, there are two scribes one each sitting on the right and the left, recording everything. (Holy Quran 50-16, 17)
(It is not a physical heart. In spiritual terms, heart means centre of the chest of the causal body. There is a cave here in which Allah is present.)

“Or do they think that We do not hear their secret talks and their whispering counsels? Yes, indeed We do and our messengers (i.e., angels) are with them, writing. (43-80)

The above verses state that Allah is closer than the jugular vein. That means Allah is within everyone. If everyone understands this, then how can they hate or kill anyone in anger or in revenge or with any excuse? What will Allah think of the killers? Will Allah feel happy or will he get angry about killing his creation? Where will Allah send the killer to; paradise or hell?

It is Allah who sees everything and judges everybody in the Paradise. Our duty is to pray for our deliverance and free us from our troubles. Holy Quran is not speaking of Muslim Brotherhood but speaking of Universal Brotherhood. Verse 9-32 states that Allah will perfect His Light (our soul) howsoever the unbelievers might abhor it.

Is Allah present in two places?

Allah takes multiple forms. Allah has established his throne above the universe after defeating Satan. He is also present within the heart of all species. Similarly angels also take multiple forms and they are within galaxies, suns and present within all living beings.

“And He it is Who created the heavens and the earth in six days- and (before that) **His Throne was upon the waters....**” (Holy Quran 11-7)

“... We are nearer to him than even his jugular vein...” (Holy Quran 50-16)

Water is the material for the creation of universe. This sentence means that the Lord is beyond the universe (look at YouTube videos on “How big is the universe”) but he is also residing within the cave of the heart of all species. This proves that Allah is present in the highest heaven beyond the universe and he is also present within us.

Our body, a microcosm is the replica of the universe; hence **Allah is within our heart as well as on top of the head** because our body is also made of water. The paradox is; when a yogi leaves the body through the Narrow Gate, he will reach the Lord present above the universe.

Everything happens according to the will of the Lord

“Are you not aware that the dominion of the heavens and the earth belongs to Allah, and that none apart from Allah is your protector or helper? (Holy Quran 2-107)

Where is the question of boundary disputes and fights for it when everything belongs to Allah? But it does not mean one can go to any one’s house, village or nation without the explicit permission of the person or government. The only question is; are you living in oppressive society or in a democratic set up? Allah’s kingdom is one of democracy. Allah has given full freedom to do as we wish but once we do any action then we are bound by the **Divine Laws**.

“He is the originator of the heaven and the earth; whenever He decrees a matter, He (merely) says; ‘Be’ and it is.” (Holy Quran 2-117)

Allah and the angels have oneness of opinion and harmony and follow the Divine Laws. If any god is called first to drink Soma, other gods don’t feel bad about it nor do they have “I am greater than thou” attitude. Allah is sitting on the Universal Throne ruling the universe and seeing and hearing everything happening in the universe.

It is similar to our body. Our mind is the lord of our body. If we are thirsty, spontaneously our body cooperates and drinks water. There is least resistance either from our mind or body. Similarly all the wishes (thoughts) of Allah are carried out by the gods.

All creation is by Primordial Ocean

“And He it is Who has joined the two seas; one sweet and palatable and the other salt and bitter; and He has set a barrier and an insurmountable obstruction between the two that keeps them apart.” (Holy Quran 25-53)

“He unleashed the two seas so that they merge together, and yet there is a barrier between them which they may not overstep.” (Holy Quran 55-19, 20)

“We made every living being out of water.” (Holy Quran 21-30)

We have seen already that there are two kinds of Primordial Water called Sweet and Salt Oceans.

Creation is cyclic in nature

“Did we, then, become worn out by the first creation? Not at all; but they are in doubt about a fresh creation.” (Holy Quran 50-15)

“To Him is your return. This is Allah’s promise that will certainly come true. Surely it is He Who brings about the creation of all and **He will repeat it so that He may justly reward those who believe and do righteous deeds....**” (Holy Quran 10-4)

After the dissolution of the universe we all will go to the Lord’s presence and be with the Lord till the next creation begins. The creation is repeated to reward righteous people but that also means all those who are unrighteous will also be reborn to undergo life’s lessons. Kings of highest spiritual order, prophets, masters and yogis will remain in the presence of the Lord for all time. Those who are not perfected by Allah have to come down to earth once again to undergo the life lessons. The only way to come out of this cycle of repeated birth and death is to be perfected by Allah.

Satan will try to bring righteous people to the wrong path

“O people! Follow not in the footsteps of Satan. For surely, he is your open enemy; he only commands you to do evil and commit acts of indecency and to ascribe to Allah the things concerning which you have no knowledge (that Satan really is their source). (Holy Quran 2-168, 169)

“If the God-fearing are instigated by any suggestion of Satan, they instantly become alert. Where after they clearly perceive the Right Way.” (Holy Quran 7-201)

“As for their brethren (the Satans), they draw them deeper into error and do not relax in their efforts.” (Holy Quran 7-202)

(Those who terrorize people or those who create disharmony in the society or those who preach hatred or instigate people to commit sins in the name of Allah must understand that their acts are directed by Satan. The funniest part is that all religions want go back to their imagined pristine days of the old.)

Allah delivers us from the Darkness of Satan

“Through which Allah shows to all who seek to please Him the paths leading to safety. He brings them out, by His leave, from darkness to Light and directs them on to the Straight Way.” (Holy Quran 5-16)

“Allah is the Guardian of those who believe, He brings them out of every darkness into Light. And those who disbelieve, their guardians are the evil ones; they bring them out of light into all kinds of darkness. These are destined for the Fire, and there shall they abide.” (Holy Quran 2-257)

(The above verse clearly states that Allah will save those who are in the path of Light. However demons will not allow us to go towards light. We commit many sins in ignorance and we have to pay for it)

“... This is a book which We have revealed to you that **you may bring forth mankind from every kind of darkness into light**, and direct them, with the leave of their Lord, to the Way of the Mighty, the Innately Praiseworthy.” (Holy Quran 14-1)

“... It is Allah alone Who guides to the Truth ...” (Holy Quran 10-35)

Because of this darkness and ignorance

“Most of them only follow conjectures; and surely conjecture can be no substitute for the Truth. Allah is well aware of whatever they do.” (Holy Quran 10-36)

Everyone should be educated because from that we develop reasoning power

“Among them are also the unlettered folk who do not know about the scriptures but cherish baseless wishes and merely follow their conjectures.” (Holy Quran 2-78)

Earthly education is a must for everyone. An educated person can grasp things more quickly than the uneducated. Because of their ignorance, people have many doubts and unnecessary questions are asked. Hadiths were written because of these questions.

Revelations were sent to all tribes

“Surely Allah conferred a great favour on the believers when He raised from among them a messenger to recite to them His signs, and to purify them, and to teach them the Book and Wisdom. For before that they were in manifest error.” (Holy Quran 3-164)

“He is the originator of the heavens and the earth. How can He have a son when He has no mate? He has created everything and He has full knowledge of all things.” (Holy Quran 6-101)

“(O Muhammad), even before you, **We never sent any other (god/gods) than human beings as Messengers**, and to them We sent revelation. Ask the people of the Book if you do not know.” (Holy Quran 21-7)

(This verse clearly rejects the concept of Avatar, God coming down to earth to guide mankind. Lord is already within us. Allah and all gods are within us, hence there is no need for the Lord to take birth.)

“To Him belongs whosoever dwells on the heavens and on earth. Those (angels) that are with Him neither disdain to serve Him out of pride, nor do they weary of it.” (Holy Quran 21-19)

Angels are always awake. They do not close their eyes or get tired like us. They are in the Sun, star systems and galaxies and they are present within all species. A person gets tired because of the physical body but angels have spirit bodies.

People were misled by not understanding the Revelation

“Indeed some people before you had asked such questions and in consequence fell into unbelief.” (Holy Quran 5-102)

(Vedic people started asking questions among themselves instead of asking for guidance from the Lord. Hence many scriptures were written by the sages of India.)

“And yet some people have come to associate the *Jinns* with Allah in His divinity, even though it is He who created them; and in ignorance they impute to Him sons and daughters. He is Holy and Exalted far above that which they attribute to Him”

(Holy Quran 6-100)

“He is the originator of the heavens and the earth. How can He have a son when He has no mate? He has created everything and He has full knowledge of all things.”

(Holy Quran 6-101)

Allah’s question to those who are misled

“And when they are told: “Follow what Allah has revealed,” they say; “No, we shall follow what we found our forefathers adhering to.” What! Even if their forefathers were devoid of understanding and right guidance?” (Holy Quran 2-170)

Regarding caste system

Say: “Take on Allah’s colour (*Varna*).” And whose colour is better than Allah’s? It is Him that we serve.” (Holy Quran 2-138)

Don’t differentiate between *Varnas* (castes) like Brahmana, Kshatriya (warrior class), Vaishya (business class), Shudra (lower caste), etc.

(*Varna*: The dictionary gives the following meaning; a colour, a kind, a species, a class, a race, a tribe or a caste like Brahmana, etc. The Kannada version of Holy Quran gives the word *Varna* instead of colour.)

Can you force anyone to believe in Allah?

“No one can believe except by Allah’s leave, and Allah lays abomination on those who do not use their understanding.” (Holy Quran 10-100)

“Had your Lord so willed, all those who are on earth would have believed. Will you, then, force people into believing?” (Holy Quran 10-99)

It is not our duty to forcefully convert others or instill fear to follow the path of Allah or commit crime in the name of Allah. This act is driven by Satan. Don’t the followers see that the Kingdom of Allah is democratic and gives full freedom for his citizens to do whatever they like? Once they do any action then they are bound by the laws of Allah. Dictators, army generals and political ideologues who enslave and kill their own people or occupy other nations will be punished. Here is a lesson for those who enforce strict adherence of Islamic/Hindu/Christian/Jewish law and communism.

You are responsible for yourself

“Believers, take heed as regards your own selves. If you are rightly-guided, the error of he who strays will not harm you. To Allah will all of you return; then He will let all of you know what you did.” (Holy Quran 5-105)

Do only Jews and Christians go to heaven?

They say: “None shall enter the Garden unless he be a Jew or a Christian.” These are their vain desires. Say: “Bring your proof if you are speaking the truth.” (Holy Quran 2-111)

“(None has any special claim upon reward from Allah.) Whoever submits himself completely to the obedience of Allah and does good, will find his reward with his Lord. No fear shall come upon them, nor shall they grieve.” (Holy Quran 2-112)

Everyone is responsible for himself. No One has any special claim; be it a Jew, Christian, Muslim, worshipper of Shiva or Vedic people. Look at the statement of Jesus below.

Mathew 7-22: Many will say to me on that day, ‘Lord, Lord, did we not prophesy in your name and in your name drive out demons and, in your name, perform many miracles?
Mathew 7-23: Then I will tell them plainly, ‘I never knew you. Away from me, you evildoers!’.

If this is the case of pastors and prophets, just think what would happen to ordinary Christians.

Any official or those in power should not abuse their subordinates

“Allah does not like speaking evil publicly unless one has been wronged. Allah is All-Hearing, All-Knowing.” (Holy Quran 4-148)

(When those in power realize Allah is within everyone; how can they abuse anybody or have grudge against anybody. When they take to task anybody it should only be for the work to be done properly but they should not abuse.)

Allah does not like unnecessary promises

“Allah does not take you to task for the oaths you utter vainly, but He will certainly take you to task for the oaths you have sworn in earnest....” (Holy Quran 5-89)

Allah on homosexuals

“And remember when We sent Lot (as a messenger) to his people and he said to them; “Do you realize that you practice an indecency of which no other people in the world were guilty of before you? You approach men lustfully in place of women. You are a people who exceed all bounds.” (Holy Quran 7-80, 81)

One simple question; is homosexuality or multiple sex activities, the work of Satan or God? It seems many people of the Middle East culture were homosexuals and this disease is spreading fast all over the world. Some people defended it as LOVE but it is Love from Satan. He wants all of us to become immoral. There is a lesson for every nation here.

God does not like those nations that are immoral, nations who legitimize and indulge in homosexuality, pornography, the abuse of drugs and commit crimes like destroying or enslaving other nations, etc. When the society is degraded or nations become sick due to the influence of Satan; God destroys them for the good of other nations. History is replete with many examples. Many civilizations have been destroyed.

Some nations, religious groups and people are destroying nations, creating an atmosphere of fear, rumours of war, looting, rape and murder of innocent people.

What awaits them? Read the verses of Allah.

“Among people there is a kind whose saying on the affairs of the world fascinate you: he calls Allah again and again to bear the testimony to his sincerity; yet he is most fierce in enmity. **Whenever he attains authority, he goes about the earth spreading mischief and**

laying to waste crops and human life, even though Allah (whose testimony he invokes) does not love mischief.” (Holy Quran 2-204, 205)

(Many nations and all religious groups have behaved in similar fashion and a few are still doing so.)

“Do you enjoin righteousness on people and forget your own selves even though you recite the Scripture? Have you no sense?” (Holy Quran 2-44)

“Who break the covenant of Allah after its firm binding, and cut asunder what Allah has commanded to be joined, and **spread mischief on earth. They are the utter losers.**” (Holy Quran 2-27)

“.....Surely He does not love the transgressors. And **do not make mischief in the earth after it (Islam) has been set in order...**” (Holy Quran 7-56)

(Wahabis, Talibanis, ISIS and other terrorist organizations listen to Allah. The Lord knew that these believers will behave in this way. Allah knows the past, present and future events beforehand. The same message applies to the Jews, Christians and Hindus who destroys nations or create disharmony in societies. Forget about paradise; just imagine what would happen to such people.)

“Therefore, We ordained for the Children of Israel that he who slays a soul unless it be (in punishment) for murder or for spreading mischief on earth shall be as if he had slain all mankind; and he who saves a life shall be as if he had given life to all mankind. And indeed, again and again did our Messengers come to them with clear directives, yet many of them continued to commit excesses on earth.” (Holy Quran 5-32)

The leaders who support or just keep quiet or those who instigate people in the name of religion, in support of fundamentalism or nationalism, shall not escape punishment. Hindu scriptures state that a part of sin committed by people shall go to the king. Similarly, people will receive a part of sin committed by the king.

“Surely you have nothing to do with those who have made divisions in their religion and have split into factions. Their matter is with Allah and He will indeed tell them (in time) what they have been doing.” (Holy Quran 6-159)
(Indians, Sunnis, Shia, Christians and other sects, be careful.)

“But people later cut up their religion into bits, each group rejoicing in what they have. So leave them immersed in their heedlessness till an appointed time.”
(Holy Quran 23-53, 54)

(This message of Allah applies to all religions. Now the situation is such that the most educated are deluded. There is no use in enforcing Allah’s way on others. Those in power do not believe in God and even if they do, they do not know that they are under the influence of Satan.)

Those who create turmoil in the society, terrorize people and those who are corrupt; they must read the following verse:

“And the Judgment shall doubtlessly take place.” (Holy Quran 51-6)

All religious groups must be very careful because their actions are driven by Satan. Many of them believe that they are protesting, attacking others or teaching them lessons in the service of their God and religion.

Can we attain Allah by Crusade or Jihad?

Allah cannot be attained by crusade or jihad but easily obtained by singing praises to him along with righteous living. If one wishes to go to Allah's Paradise in this life itself, then they will have to search for a teacher who can guide them.

Rig-Veda (1-62-7 SB) states: "**He who is not to be attained by violence** but easily propitiated by those who praise him with sacred hymns, parted the spheres of heaven and earth, like the Sun in the august and most excellent sky."

Muslims pray 5 times a day but what does the Holy Quran state?

"... And remember your Lord much and exalt (Him with praise) in the evening and morning." (Holy Quran 3-41)

"And remember, (O Prophet), **your Lord in your heart with humility and fear** and without raising your voice; remember Him in the morning and evening and do not become of those who are negligent." (Holy Quran 7-205)

(Prayers for one hour starting from forty-five minutes before sunrise is the most beneficial time for getting the blessings of the Lord. This is the time the Supreme Lord and Elohim's blessings pour on those who are praying. Those who are free may worship Allah in the afternoon.)

However Prophet Mohammed (PBUH) got the permission to pray 5 times a day from Allah.

Idol worship as Deity of Holy Spirit

"And recall when Abraham said to his father, Azar: "Do you take idols for gods? I see you and your people in obvious error." (Holy Quran 6-74)

"Surely the hypocrites shall be in the lowest depth of the Fire and you shall find none to come to their help." (Holy Quran 4-145)

"When our messengers (the angel of death and his assistants) come to them to take their souls, they (the angels) will say: "Where are those whom you used to invoke and worship besides Allah," they will reply, "They have vanished and deserted us." And they will bear witness against themselves, that they were disbelievers."

(Holy Quran 7-37)

"God does not forgive idol worship (if maintained until death), and He forgives lesser offenses for whomever He wills. Anyone who idolizes any idol besides GOD has strayed far away. (Holy Quran 4-116)

"It has been revealed to you and to those before you that if you ever indulge in idol worship, all your works will be nullified, and you will be with the losers."

(Holy Quran 39-65)

On the day of dissolution of Heaven and Earth, all the souls assemble before the Lord. On that day the Lord questions those who were worshipping the idols to call their Gods to see if they can be saved from punishment for their mistake.

We have read that idols are nothing but “Deity of Holy Spirit”. When the universe dissolves, all forces will be withdrawn and the Holy Spirit merges and become one force. The Holy Spirit present in the deity also gets dissolved and becomes one force. The Holy Spirit then moves on the surface of the water and it loses its personality and mind.

How should we behave with others?

“Do not (contemptuously) turn your face away from people, nor tread haughtily upon earth. Allah does not love the arrogant and the vain glorious. Be moderate in your stride and lower your voice. Verily the most disgusting of all voices is the braying of the donkey.” (Holy Quran 31-18, 19)

It is up to Allah on whom to bless.

“Whatever Mercy Allah accords to people, none can withhold; and whatever He withholds, no other will be able to release after Him. He is the Most Mighty, Most Wise.” (Holy Quran 35-2)

Chapter - 6

RIG-VEDA, THE FIRST DIVINE REVELATION

“You are a warrior, self-ruler and shower gifts, You are fierce, youthful, you are dense with your powers; you are the luminous one. You are the holder of Vajra (Thunderbolt) and un-ageing. O Indra of inspired knowledge, you are indeed great with your many great hero-acts.”
(Rig-Veda 3-46-1 RLKashyap)

Holy Quran 2-213: “In the beginning mankind followed one single way. (Later on this state ended and differences arose.) Then Allah sent forth Prophets as heralds of good tidings for the righteous and as warnings against the consequences of evil-doing. He sent down with them the book embodying the Truth so that it might judge among people in their disputes. **And those who innovated divergent ways rather than follow the Truth were none other than those who had received the knowledge of the Truth and clear guidance; and they did so to commit excesses against each other.** So, by His leave Allah directed the believers to the Right Way in matters on which they disagreed. Allah guides whomsoever He wills onto a Straight Way.”

The above verse of Holy Quran is speaking about Rig-Veda.

In the beginning, when mankind evolved to a stage of speaking and interacting with other tribes, the eternal sages came down to earth and taught Vedic people a very simple kind of worship through Fire Sacrifice. The sages taught them simple mantras in an unknown language. The Vedic people obeyed the sages and started performing Fire Sacrifice in their houses three times a day.

Vedic people followed the path of eternal sages and continued fire sacrifice for centuries. However they were unaware of the meaning of mantras and the glory of Gods. The simple mantras were in divine language which was unknown to them. Their intelligence grew due to prayer and Fire Sacrifice to gods. As their worship continued, doubts aroused among them about the superiority of Gods.

Rig-Veda came down in “Language of the Gods”. Therefore it is not understood till today.

Then the Lord sent a revelation to the Vedic people who were residing on the banks of Sarasvati River in the Himalayan Mountains. Even after sending the revelation, Vedic people could not understand the revelation as it came in a language unknown to them. Revelation came in the language they were praying because their language was not yet developed to send revelation in human language. Sages who received the revelation could grasp the meaning superficially but could not understand the deeper meaning of it.

(Similarly revelations received by others could not be understood by those who received it even though it came in their own language. They only understood the superficial glory of the Lord but could not grasp the true path of the Supreme Lord.)

The reason for sending divine revelation in the beginning of human history is; unless man understands the science of living in the right path he cannot be punished for his mistake or bless him with heaven. Because mankind was perfectly created in the image of Gods and they were given Reasoning Mind to decide themselves. Man is capable of achieving anything he wishes. He just has to focus his mind on the subject. This capacity is not present in other animals. Therefore his deeds will be documented by the Gods and they will reward him accordingly.

The word 'Veda' means knowledge. Rig-Veda means praises to Gods. Among these praises, the glory of Gods is hidden. No one can gain insight by reading, studying or contemplating on the Rig-Veda. Thousands of years have passed, yet the Rig-Veda has not yet revealed its secret.

The Supreme Lord's blessing is of utmost importance to understand Rig-Veda.

But now in India no one worships Indra. Hence everyone in India has deviated from the true path. They have clearly rejected Indra as of no importance.

The message of the Rig-Veda was to teach everyone for the benefit of mankind. In the beginning they tried to teach whomever they came in contact with. It seems the ancient trade route was passing through the Vedic people's settlement. So many Sanskrit words were spread across the whole world. The Vedic people discontinued teaching others as they could not pronounce Sanskrit properly. Proper pronunciation is of utmost importance as mantras have to be uttered perfectly.

This is how many Vedic words and truths spread across the world. It is also because ancient Bharat is the first civilization on earth which spread to many nations from the West to Middle East, East and Far-eastern nations. Sanskrit originated from the banks of the Sarasvati River in the Himalayan mountain range. The sages who received divine revelation gradually developed it into a language called Sanskrit. Although there were many differences about the meaning of words, many generations refined it and developed the Sanskrit language.

This is the reason all commentaries on Rig-Veda differ from one another.

In the beginning, the Vedic people were worshipping Gods through Fire Sacrifice alone. The sages could not attain immortality by performing Outer Fire Sacrifice as they did not know the Inner Fire Sacrifice which leads to the abode of Indra. This world of light which gives immortality is beyond the universe. If anyone wants to achieve immortality, he has to leave the body through the **narrow gate** which leads to the presence of the Supreme Lord present beyond the universe.

The family groups who received revelation grew many folds in course of time. As their numbers grew, they dispersed all over India. The dispersion may be due to tectonic plate shift in the Himalaya which led to the disappearance of Sarasvati River. There was no communication between villages, towns or kingdoms as today. No one had complete grasp of the Rig-Veda as time passed. Each family group recited a part of Rig-Veda and preserved them for the next generation.

Therefore during the time of the epic Mahabharata, sage Veda Vyasa sent his disciples to collect Rig-Veda from all over India. When it was collected, studied, catalogued and analyzed, it seems sage Veda Vyasa was disenchanted with the Vedas. The lineage of Veda Vyasa was already a believer in Upanishad scriptures and its teaching. Veda Vyasa believed Brahman and Lord Vishnu as Supreme Lord.

Veda Vyasa proclaimed that Fire Sacrifice is only for attaining our desires, one may go to the seventh heaven but one will not attain immortality.

Veda Vyasa believed Vishnu to be the Supreme Lord and hence he wrote the 18 Puranas, Mahabharata, Srimad Bhagavata and many literatures glorifying Vishnu and Krishna as the Supreme Lord. Veda Vyasa and his followers considered Vishnu who later took birth as Krishna as the Supreme deity.

Vishnu, whom the Vedic people consider as the Supreme Lord, always saves Indra and returns his kingdom. It is also said that any human being can become Indra, the king of heaven by doing pious acts like Horse Sacrifice (*Ashvamedha Yaga*). Once his meritorious deeds are over, Indra will be born as a normal human being or a lowly animal on earth. Therefore Vedic people stopped Indra's worship since the time of sage Veda Vyasa.

When we study Mahabharata and the earlier scriptures, we see that Hindu kings had established their kingdoms on almost all nations on earth. They had established kingdoms as far away as Tashkent, Malaysia, Indonesia, Cambodia, etc. Even Buddhism originated in India and travelled across to China and Japan. Hinduism may have extended to Russia and Europe too. Greek mythology too was influenced and based on Puranas (mythology). I believe that the Indian civilization was the first civilization on earth.

Why Vedic people rejected Indra?

The scriptures state that Indra always drinks heavenly wine and watches nymphs dancing in the palace court to please him. Indra is an arrogant God who always gets into trouble by committing mistakes. Demons often attack his palace and throw him out of Paradise to snatch his throne.

In Srimad Bhagavata, it is said that Sri Krishna stopped worship of Indra by the villagers. Then Indra got angry with Sri Krishna and caused heavy rain on the village. Then Krishna lifted the Govardhana Hill and gave protection to the villagers and cows. After many days Indra surrendered to Krishna and asked for his forgiveness.

It is also said in the Ramayana that Indra is a very lustful person and once he wanted to sleep with Ahalya, the wife of sage Gautama as she was very beautiful. Once when sage Gautama went in the morning for a bath in the river, Indra went to his house in the guise of the sage and slept with Ahalya. When Indra was coming out of the house the sage saw him and cursed him and his wife.

It is also said that the kingship of Indra is not a permanent one and when his accumulation of good deeds are over, he will come down to earth to be born as a man or sometimes as a lowly animal.

We cannot blame the Vedic sages for their misunderstanding. Sayana wrote a commentary about 500 years ago which is very close to the truth but none could understand it till now. To understand Rig-Veda or any divine revelation, blessings of the Lord is very necessary. The development of science is also required to understand Rig-Veda. Despite many revelations received by many nations none could understand it. It is also because mankind is overpowered by Satan who does not allow us to understand these revelations.

After sage Veda Vyasa rejected Fire Sacrifice, the downfall of India began. Thereafter Indians started worshipping many Gods whom they thought to be the Supreme Lord and deviated from the true path. The great civilization of India came to an end when Vedic people rejected Indra. Many kingdoms across many nations disintegrated after the Mahabharata war and the Indian continent became weak.

Let us now see why Indians stopped worshipping Indra. Rig-Veda is glorifying Indra in no uncertain terms, yet why did the Vedic people reject Indra as the Lord of men and the universe? Why did the later Vedic people abuse and insult Indra?

Let us analyze the reasons for it:

- In the beginning the seven sages taught Fire Sacrifice to the people on earth (See Purusha Sukta). Vedic people learned to perform fire sacrifice without understanding the glory of Gods. The seven sages according to Rig-Veda are Bharadvaja, Kashyapa, Gautama, Atri, Vishvamitra, Jamadagni and Vashishta.
- Vedic people could not understand the meaning of mantras of Fire Sacrifice though they were performing it. They were unaware of God's role in creation. Gradually doubts started arising within them.
- Then revelation came in a divine language but not in their mother tongue. The reason for revelation in Sanskrit may be because they were chanting mantras in Sanskrit. Their mother tongue may have been in a nascent stage. Hence revelation could not come in an undeveloped language.
- Despite the revelation, Vedic people could not understand it. They thought that all gods mentioned in Rig-Veda are the names of one Supreme God Purusha/Vishnu. They were not aware of the role of each god in creation. (Remember Genesis and Quran is not understood even today.)

Even today Vedic people believe that all names mentioned in Rig-Veda are the name of one Supreme Purusha.

- The Vedic people gradually had to learn the Sanskrit language and each word was analyzed by sages many times. That is the reason all commentaries on Rig-Veda differ from one another. They understood the Outer Fire Sacrifice but they were not aware of the Inner Fire Sacrifice.
- Though they believed Rig-Veda to be the ultimate authority in any dispute regarding the truth, the sages were not intellectually satisfied with its knowledge. So, they started questioning among themselves about the Vedas and searched for truth beyond Rig-Veda. They wanted to understand the ultimate reality present beyond gods because the Rig-Veda states that gods were born later in the process of creation.

The Upanishads were the result of questioning among the sages regarding the highest truths. It is stated in Upanishads that Brahman is the one to be sought by acquiring knowledge of

Brahman. The Upanishads state that Brahman is Sat-Chit-Ananda (eternal existence-consciousness-bliss). Brahman does not undergo any change, he is consciousness and he is always in bliss.

The Advaita philosophy which developed on the line of Upanishads states that observable universe and everything is Brahman only (Darkness mentioned in Genesis 1). There is no one present except him. Whatever appears in between is illusion. Therefore anyone who understands this truth becomes one with Brahman. Everything ceases to exist for such a person. Such persons will always be in bliss of oneness throughout life.

Upanishad sages had no scientific knowledge like today, it was difficult for sages to understand the truth expounded in the Rig-Veda. They believed that by performing fire sacrifice one may attain heaven but he has to come back to earth once again. Therefore they searched for answers to attain immortality. In their search they finally came to the conclusion that by worshipping and understanding Brahman they can attain liberation from birth and death.

The only saving grace of Indian civilization was that the Rig-Veda was preserved here. Some families were conducting Fire Sacrifice daily. A few Tantrics were worshipping Divine Mother Kundalini and morality was the basic principle of Indian sages and ordinary people till about 70 years ago. Yama and Niyama of yoga were the basic tenets for the spiritual path. Therefore the Indian civilization was not destroyed by Lord Indra as were other civilizations.

(Yama: Ahimsa (non-violence), Satya (truthfulness), Asteya (not stealing), Brahmacharya (sexual abstinence in body, mind, and speech), Aparigraha (non-covetousness)

Niyama: Shoucham (cleanliness of body and mind), Santosham (contentment), Tapas (meditation produces heat/fire which will purify our body), Svadhyaya (reading the Divine verses everyday so that we may not forget it), Ishvara pranidana (devotion to the Lord and Guru) Mithahara - moderation in diet is an important aspect in the spiritual path)

Whatever was the reason for Vedic people to denounce Indra, he too denounced them and joined hands with other inferior races of those times. **Why other races were inferior?** It is because Fire Sacrifice is the highest form of worship of Gods. Had they kept Rig-Veda as the Divine Word and followed the worship of Indra through Fire Sacrifice, they would not have become slaves of foreign nations.

It is to the credit of Sayana (who lived about 500 years ago during the rule of the Vijayanagar Empire) who wrote a commentary on Rig-Veda which is very close to the true meaning of Rig-Veda. Many people wrote commentaries on Sayana Bhashya which also differs from one another.

The erstwhile Maharaja of Mysore kingdom Shri Jayachamarajendra Wodeyar, appointed a team of scholars headed by Asthan Vidvan H.P. Venkatarao who wrote a detailed commentary on Sayana Bhashya in Kannada. It was recently published by the Karnataka government. This translation is almost very close to the real truth as it matches with my vision of the Lord and his revelations.

(Read “Wisdom of Rig-Veda” for further understanding.)

Chapter– 7

PYRAMID, THE DIVINE STRUCTURE

Pyramid comes to our vision the moment we think of Ancient Egypt. According to some historians the Pyramid was built about 4,500 years ago. That was the time period of Abraham, the founder of Jewish community. If the Pyramid was built during that time it would have been documented in their history. His third or fourth generation of Jews was the prisoners of Egyptian Kings. Moses released Jews from their bondage and led them away to a land of their own.

These Egyptian kings and Jews did not possess the technology to build the great Pyramid. Egyptian history also never mentions about the builders of Pyramid and the king who built it. Every tribe behaved as if the Pyramid was present even before them. The Pyramid builders were so advanced in the art of building mechanics that even present day scientists are wondering about their capabilities. It seems that the Giza Pyramid was a perfect Pyramid and all other Pyramids constructed after that seem to be degrading and not improving engineering. Normally we see that when someone learns the trade, the skill improves with time but in the case of Pyramid we see a degradation of mechanics of building Pyramids.

Therefore, some suggest that the Giza Pyramid might have been built by aliens because the local people did not possess the mechanics of building idols and Pyramid. The idols of their gods and kings are so perfect that one side of the engraving matches with the other half of the idol. Such technology and perfection cannot be achieved even today.

Therefore, some suggest that its origin is divine. I think when Indian civilization rejected Supreme Lord Indra; the Lord may have chosen the earliest Egyptians.

It must have been the Lord who gave design and measurement of the Pyramid structure.

The triangular shape of the Pyramids is actually a divine symbol of creation and destruction. It is said in Tantra that downward apex of a triangle is a creation triangle and upward apex of triangle is a dissolution triangle. These triangles are three-dimensional triangles. When Universal Mind enters Breath and Primordial Ocean for creation, it first creates four triangles in the process of creation. In all these triangles, the apex of the triangle is downwards. Similarly, at the time of dissolution, the apex of the triangle turns upward and Universal Mind once again dissolves everything and enters Darkness surrounding Primordial Ocean and Breath.

The Tantrics worship Universal Divine Mind as Mother present within the downward triangle. Yogi raises her from sleep along with his soul and takes her to the highest place where the Moon is present. Within the Moon is present Darkness (Brahman) triangle. Mother and the soul of yogi disappear as soon as they enter Brahman. After enjoying the bliss of Brahman for some time, they once again rise from Brahman and come back and the yogi brings his soul to its original place.

Mother comes back because the apex of the triangle is downward. But when the time comes for the yogi to leave the body, the **yogi thinks the apex of the triangle to be upward**. Then the triangle turns upwards. The yogi then takes his soul and Mother upwards and merges in the triangle present within the Moon and leaves the body. Thereafter yogi and Mother won't come back to the physical body. Yogi has attained immortality. This process of dissolution gives renunciation to the yogi. He won't have any wish to come back to the earth.

It is also to be remembered that the yogi merges in Darkness of the triangle present within the Moon and not in the Darkness present beyond Primordial Ocean and Breath. All have to wait till the dissolution of the entire creation by Universal Mind. Therefore, yogi will remain in Brahman as long as he wishes and then he will come out of Brahman and reside in Siddha Loka (world of masters) or with Adi Guru Shiva away from the distraction of worldly life.

Triangles, squares and circular shapes are sacred geometric designs. They emanate divine powers. Even two-dimensional geometric shapes too emit divine power. This may be the further evolution of Pyramid structure. This is the basis of Tantric worshipping gods and goddesses through Yantras (sacred geometry). These two-dimensional designs too emanate divine powers and gods and goddesses manifest in the centre of these Yantras. One can invoke any god whom the worshipper desires within the centre point of the Yantra. The knowledge of Yantras is a huge subject as the knowledge of mantras. There are different designs for different gods and goddess.

Even if one constructs a square compound on the ground, the plot within the compound will emit divine power. A house built within the compound generates divine energy which will be auspicious for the family living in the house. However for better results pyramid squares should be used. Vastu engineering called Vastushastra, originated from this understanding. To give an example, the pyramid is constructed on a square plot and another example is that of the Sacrificial Pit which is constructed squarely.

Pyramid Religion

Therefore I believe the Pyramid is a physical representation of the dissolution triangle mentioned in Tantra. It may be true that pyramid is a place for sending the kings directly to the heavens. The dead bodies of the kings were placed in the king's chamber and priests conducted burial rites with divine chants. The subtle body of the king would be hovering around its dead physical body till its death rites were conducted. As the Pyramid's inner sanctum is filled with divine energy of the Supreme Lord and Elohim, the king's subtle body might go directly to the presence of the Supreme Lord or to seventh heaven.

There were four major dynasties in ancient Egypt viz., Hermopolis, Heliopolis, Memphis and Thebes. These cities had their own cult gods. Let us understand some of their gods to know the connection with Rig-Veda.

Osiris: He was worshipped during the first dynasty. Osiris was the first child among five sons born to god of the earth Geb and goddess of sky Nut respectively. As the first born he inherited the throne. His epithet was "King of the Living" "Foremost of the Westerners". He was also called "Ruler of the Dead". Osiris' other titles include "Lord of Love", "Lord of Silence" and "One who is Permanently Benign and Youthful".

(When the scriptures state that Osiris is the eldest son, it is not like a lady giving birth to a child on earth. Universal Divine Mind is imperceptible and hence it cannot be seen by

anyone. The Universal Divine Mind by its will power makes the Gods manifest. After the manifestation of Gods, they create and rule the universe. As a warrior God the first-born Osiris ascends the Throne. Osiris being killed is a mythology written by ancient Egyptians. Osiris and Gods can be seen only in Hyper Space or Deep Space. The buildings are not a limitation when Gods come through Hyper Space. They just come through it and appear to the devotee.

Ra: He was the Sun God. Sun was said to have risen from the Pyramid mound which appeared on top of the Primordial Waters. All forms of life were believed to have been created by Ra, **who called each of them into existence by speaking their secret names.** Pyramid Texts state that man was created from Ra's tears and sweat and hence the Egyptians call themselves the Cattle of Ra.

(Our subtle body may have secret names. At the time of death divine bodies go back to universal man. Our breath and mind will go to one of the seven heavens. Rig-Veda states that it is Sun-Savitru (Elohim) and other gods who created all species but man was created in their image. Our physical body is due to Savitru. Therefore, Savitru is called *Prajapati*- the Lord of all species including man.)

Nu or Nun: He is called the Lord of Primordial Water. According to ancient Egyptians the universe was said to have emerged from an infinite, lifeless ocean. Nu is also said to represent the sacred lake.

(According to the Rig-Veda, Lord Varuna is the Lord of the Primordial Ocean and these waters converge like lakes throughout the ocean and they turn into galaxies and star systems.)

Ptah: He is said to be a craftsman and architect who gives shape to everything. Ptah conceives the world by the thoughts of his heart and gives life through the magic of his Word. That which Ptah commanded was created, with which the constituents of flora and fauna are contained.

(Rig-Veda states that it is God Twashtri who gives forms and shapes to everything including all life forms. Recall that Allah is an Emperor; as such he does not do any work. He just thinks and the work will be done by the angels.)

The Pyramid texts speak about many other gods whose functions resemble that of Rig-Vedic gods. After the Vedic people deviated from the path of the Lord, Lord may have blessed the ancient Egyptians. In the first dynasty of ancient Egypt, Osiris/Indra was worshipped but later on they started worshipping God Ra as the Supreme Lord. Even in Vedic history, Indra was worshipped in the beginning, later they started worshipping Vishnu, Sun-Savitru as the Supreme Lord.

Indra might have revealed the measurement of the Pyramid to its builders. The Pyramid is a divine structure. If any advanced seeker sits within the king's chamber calmly, Sun-Elohim appears directly on top of the head. When the Supreme Lord is invoked, the Lord descends on top of the head and appears to the seeker as sitting on the throne. This I have experienced in my spiritual journey. Let us now see the meaning of the word Pyramid:

- The word Pyramid means fire in the middle

- The Pyramid is also called the tomb of Osiris meaning Osiris is inside the Pyramid. The Supreme Lord appears as Fire/Flame/Light - meaning Osiris is the Supreme Lord who appears as Fire and also in human form

Therefore it is clear that the Pyramid is a divine structure or it may be called Divine Temple to purify ourselves and go to the abode of the Lord. Let us look at Isaiah chapter 19 on the glory of Pyramid.

Isaiah 19-19: In that day shall there be an altar to the LORD in the midst of the land of Egypt, and a pillar at the border thereof to the LORD.

19-21: And the LORD shall be known to Egypt, and the Egyptians shall know the LORD in that day, and shall do sacrifice and oblation; yea, they shall vow a vow unto the LORD, and perform it. (Source: christiananswers.net)

My experience inside a Pyramid

One day in September 2012, I saw a TV programme on Pyramid meditation in which people claimed that many diseases were cured just by sitting in the king's chamber. It also claimed that cosmic energy flows down from the top upon those who sit in the king's chamber. The calming effect of the energy cures them of their disease. I now wanted to experience the cosmic energy within the Pyramid.

A few days later while I was in communion with the Lord; a thought floated in the mind to create a Pyramid. I created the Pyramid by my thought making the four walls of my room as the retaining walls of the Pyramid. Immediately the Lord shifted position and aligned ninety degrees above the head. Before that I used to put a neck lock and the position of the Lord was slightly behind. After a while I ended the meditation.

Next day while I sat for meditation again, I created the Pyramid by my thought force inside the room. I observed the Pyramid calmly and within a minute the Sun appeared about two to three feet above the head. Earlier I was experiencing the Sun within the chest or head but now it appeared on top of the head. The white light of the solar disc appeared bright and powerful; after meditating for a while I invited Lord Indra and Lo! The Lord appeared immediately on top of the head and the Sun came down and disappeared within me. Therefore, Supreme Lord and other angels can be seen within the Pyramid. This has been my experience whenever I meditate inside the Pyramid constructed by my thought force.

EPILOGUE

Let us know the salient feature of this book. The first thing is to understand that **we all are under the grip of Satan**. Everyone is under his control and all our actions are directed by him. This is the reason why we are unable to get the blessings of Supreme Lord in spite of praying daily. How can we overcome the influence of Satan?

The first criterion is to defeat Satan. It is only Supreme Lord who can defeat Satan but our prayer is not answered. It is a catch-22 situation. Neither can we get the blessing of Supreme Lord nor can we defeat Satan. Satan will always misguide us from the path of Supreme Lord. This book shows us the way to defeat Satan and get the blessings of Supreme Lord.

Nicholas Tesla states that if we want to understand the secret of the universe we have to think in terms of energy, frequency and vibration. This means that everything in the universe is vibrating at different frequencies. We therefore need to chant Surahs of the Holy Quran to produce divine energy, frequency and vibration to defeat Satan.

We have to first develop our speech to express the divine vibration to the full capacity. The perfect speech (Vak) is itself a **science of Divine Speech**. I do not know the significance of the verses of Holy Quran as I am ignorant of it. But Rig-Veda, the first revelation on earth which came in the language of Gods helps us in this regard

When a person chants the Rig-Vedamantra in a proper manner, the divine vibration produced by it subdues the darkness of Satan. Therefore, the first criterion to defeat Satan is to learn the Rig-Veda mantra.

Although Supreme Lord blessed me without any effort from my side, I too learned mantras of Rig-Veda to get the blessings of Gods. It is because there is divine power inherent in Rig-Veda mantra, which comes into action when uttered properly. When someone chants mantra of Supreme Lord and Gods, their aura and form grow.

I have seen Westerners chanting Sanskrit mantras and according to me it is of no use. Each syllable and word should be chanted correctly and while chanting, the throat, navel, chest and mouth come into action. In this regard the pronunciation of Karnataka people is perfect. The correct learning process helps us to retune and perfect our speech (Vak) to express divine power.

I found that other Sanskrit mantras have no such inherent power. Therefore, everyone who is interested in the spiritual path has to learn certain Rig-Veda mantras for the purpose of defeating Satan and getting the blessings of Supreme Lord. One need not learn all the mantras of Rig-Veda. In my case I chose Gayatri meter mantras for this purpose wherever possible. Gayatri mantra has 24 syllables and it is short and easy to recite.

Supreme Lord and the Gods were present in the sweet ocean and Satan and other demons were present in the salt and bitter ocean. When Gods created Sun in the universe, Satan got angry due to the effulgence of the Sun; he rose up and occupied the sweet ocean. Satan covered the Sun and sweet ocean with darkness. Satan built a fort around sweet ocean, took the form of a Leviathan Beast and slept around the mountain. Thereafter Supreme Lord fought with Satan and slaughtered him, pushed him to the pit of the lower world and closed it with alid.

Supreme Lord won the ocean, recovered the Sun from darkness and placed the Sun above and let the creation continue. Supreme Lord also established His throne above the sweet ocean. Supreme Lord watches and hears everything happening in the universe. Therefore, the universe is protected by Supreme Lord and there is no satanic influence in the universe.

Supreme Lord is not everywhere as believed by some. Supreme Lord is present on top of the Primordial Ocean and also present within every living being.

Microcosm is the replica of Macrocosm. All species including man are also created by the sweet ocean. Our body is a replica of the universe. The pit of the lower world is open within us. Therefore, Satan and demons have risen from the netherworld and covered the sweet ocean and Sun with darkness. Hence, we cannot see the Kingdom of God present within us.

Supreme Lord is present within the heart centre of Heavenly Adam (causal body) and the soul of Adam is present within the plantain flower of nerves. Both the cave and plantain flower are closed and as such they are not in direct contact with Satan. Subtle body, a replica of Universal Man is present within the physical body. These bodies are covered in darkness of Satan hence we cannot see it.

Therefore, the secret of the universe is also the secret of our body. By understanding the man one can understand the macrocosm. When a person enters the spiritual path and gains the blessings of Supreme Lord, gradually **everything will be revealed one by one**. This process of understanding will also prove that Supreme Lord has really blessed us. Even if one does not pray daily, the revelation will be continuous.

Thereafter we can see Supreme Lord within us and also on top of our head. That is not the end of the spiritual journey. We need to perfect our soul, mind and Holy Spirit because the Holy Spirit has recorded many dirty and unwanted things in its mind since childhood. Thereafter we need to know about the narrow gate present within us and at the time of death; one must leave the body consciously through this narrow gate to reach the abode of Supreme Lord.

The Holy Spirit is omnipresent. He is present in the macrocosm and the microcosm. Supreme Lord and the angels wear the Holy Spirit as their body. Everything in the universe is created by the angels using water and Holy Spirit. Similarly, all species including man are created by water and the Holy Spirit. Causal body, subtle body and physical body are all created and sustained by the Holy Spirit.

In the beginning, we all were present in Paradise. When the angels created earth, we were all attracted towards the earthly creation and wanted to descend and enjoy the life on earth. Then Supreme Lord created the causal body as a vehicle for us and placed our soul in it. Supreme

Lord Himself descended along with it to protect us from Satan. Universal Man provided the subtle body and Elohim provided us with a physical body to fulfill our desires on earth.

So, the soul has a divine mind and appears like a candle light in a windless place. The *holy spirit-mind* of the physical body is different from the soul.

This shows that Supreme Lord is Light and we too are Light beings. **Adam, a Light being cannot enjoy earthly life directly.** Therefore, a causal, subtle and physical body is provided with Holy Spirit and Mind for the functioning of the physical body. The physical body is born, experiences life and after certain time period dies. Two angels keep a record of all the good and bad deeds committed by the *holy spirit-mind*. After death, the physical body becomes one with the earth and the causal and subtle bodies, being heavenly bodies go back to the universe (Universal Man).

Our *holy spirit-mind* of the physical body is judged for our actions by Elohim. Sometimes this *holy spirit-mind* of the physical body cannot go to one of the seven heavens and gets stuck on the earth plane for some reason. That person sometimes may appear to a few people as a ghost.

This means the *holy spirit-mind* of the physical body is bound by earth and Sun. Elohim is the ruler of earth and the seven heavens. Elohim controls the birth and death of the physical body of man.

We will be in one of the seven heavens till our next birth and after sometime we will be reborn on earth. When we are about to be born, a divine body comes down and attaches itself to the physical body of the child. (They may enter at the first breath of the baby. I don't know.) No one can escape from the cycle of birth and death. Heavenly Adam has to wait till the day of Qiyamat to go to Paradise.

For some reason the secret path was present in India and nowhere else in the world. Although Indians have deviated from Supreme Lord, Supreme Lord did not destroy the people of India because Rig-Veda and the secret path are still present here.

It may be because other tribes of the world had no understanding of Supreme Lord. The history shows that they were crueler and they had no respect for other human beings. India was the only country where spiritual persons practiced the basic tenets of Supreme Lord's path. The practice of Yama and Niyama is a prerequisite to be followed by those who wish to seek the blessings of Supreme Lord. (See page 110)

Praying to Supreme Lord to perfect ourselves is very selfish. We must also pray for the good of all living beings. The Holy Quran states that men and women, animals, birds, trees and plants all belong to the same category.

“There is no animal that crawls on the earth and no bird that flies with its two wings but are communities like you. We have neglected nothing in the Book (of decree). Then to the Lord will they all be mustered.” (Holy Quran 6-38)

This means they too have Light within them as soul. Therefore, we should pray for the good of all living beings including mother earth. As we pray for the good of all, our heart will be purified and Supreme Lord's grace will descend on us. When our heart is purified by praying

for others, **Golden Heart** manifests within us. This golden heart emits rays of peace, happiness, joy, protection, blessings of Supreme Lord and healing powers.

Christians call this as **Sacred Heart**. It is often depicted as a flaming heart shining with divine light, pierced by the lance-wound, encircled by the crown of thorns, surmounted by a cross, and bleeding. Jesus' heart may have appeared like this to the devout Christians. However, when a person prays for the good of everyone, golden heart manifests within him.

Finally, the whole creation is the play of The Supreme Lord Supreme Lord, Soul, Holy Spirit and Primordial Ocean. I have explained the glory of Supreme Lord briefly.

Om Shantih, Shantih, Shantih.
